#### **Cautionary Information**

#### Users of this information should be cautioned about several points:

The General Fund financial information in this document has been prepared using what is believed to be the best available data as of its date. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a "financial statement." None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information speaks only as of the date on which it was prepared. The State is not obligated to update any of this information unless so required by undertakings related to its Continuing Disclosure Annual Report.
- Information classified as "actual", and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified and, if material, appropriately noted.
- The information is not intended to reflect the State's projected budgetary balance for fiscal year 2023-24.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
  - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (DOR) and the Legislative Fiscal Bureau (LFB) are expressed on a *budgetary basis* and net of any refunds.
  - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements but may be adjusted to reflect unique events.
  - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement, including, but not limited to, the fiscal effects of the COVID-19 pandemic.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The presence of information here does not imply the State of Wisconsin made any determination as to its materiality.
- None of the information in these tables of financial information is required by the State of Wisconsin's continuing disclosure undertakings pursuant to Securities and Exchange Commission (SEC) Rule

15c2-12; however, this information is being filed with the Municipal Securities Rulemaking Board's **(MSRB)** Electronic Municipal Market Access **(EMMA)** system as an additional / voluntary filing.

- This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
- This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

#### **Tax Filing Update**

As of March 9, 2024, the total number of State of Wisconsin tax returns completely processed in calendar year 2024 was up by 1% when compared to those processed during the same time in calendar year 2023. The total number of refunds issued in calendar year 2024 was up by 3% compared to calendar year 2023. The average dollar amount of refunds was \$783 which is up by 2% compared to calendar year 2023 levels. The potion of processed returns with refunds was approximately 82% which is up by approximately 2% compared to calendar year 2023.

#### **Budget for 2023-25 Biennium**

#### January 2024 LFB Report – General Fund Condition Statement

The January 2024 LFB Report includes an updated estimated General Fund condition statement for each fiscal year of the 2023-25 biennium. The net General Fund balance for the end of the biennium (June 30, 2025) is projected to be \$3.2 billion. This is \$810.8 million lower than the balance that was projected at the time of the enactment of the 2023-25 biennial budget (2023 Wisconsin Act 19), as modified to incorporate the fiscal year 2022-23 ending balance as shown in the Annual Fiscal Report for fiscal year 2022-23.

The following table provides the estimated General Fund condition statement for each fiscal year of the 2023-25 biennium. The table also includes, for comparison, the estimated General Fund condition statement for each year of the 2023-25 biennium, as included in 2023 Wisconsin Act 19.

The State has filed the January 2024 LFB Report with the MSRB through its EMMA system, and a copy is available from the State as provided on page 14.

#### CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION<sup>(a)(h)</sup> July 31, 2021 to January 31, 2024 — Actual February 29, 2024 to June 30, 2024 — Projected (Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$3.412 billion during November 2019 to a high of \$7.108 billion during January 2024. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

#### Endnotes

- <sup>(a)</sup> Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this report. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- <sup>(b)</sup> Temporary reallocations of cash are not included.
- (c) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles. The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds ranged from \$1.5 billion to \$2.2 billion for fiscal year 2021-22, \$1.1 billion to \$1.5 billion for fiscal year 2022-23, and are anticipated to range from \$895 million to \$1.6 billion for fiscal year 2023-24.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the gross general-purpose revenue appropriations then in effect (approximately \$2.0 billion in fiscal year 2023-24) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$680 million in fiscal year 2023-24). If the amount of available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.
- (e) The projections and estimates for the 2023-24 fiscal year (cash basis) reflect 2023 Wisconsin Act 19 and the May 2023 LFB Report. The projections and estimates do not reflect the January 2024 LFB Report. The projections and estimates do not reflect any specific disbursement, but rather generalized assumptions for disbursement, of remaining ARPA federal funds. Temporary reallocations of cash are not included.
- <sup>(f)</sup> Reflects no operating notes issued or assumed to be issued for fiscal years 2021-22, 2022-23 or 2023-24.
- <sup>(g)</sup> Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed and the result is a large variance. This column includes adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- <sup>(h)</sup> The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocations were made from such fund.
- <sup>(i)</sup> This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis. In addition, reflects receipt, as of June 30, 2023, of approximately \$2.5 billion of ARPA federal funds.

- (j) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.
- <sup>(k)</sup> The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for fiscal year 2022-23, dated October 16, 2023.
- <sup>(1)</sup> The estimates reflect 2023 Wisconsin Act 19.
- <sup>(m)</sup> The amounts shown are fiscal year 2022-23 general purpose revenues and program revenues taxes as recorded by State agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- <sup>(n)</sup> The amounts shown are fiscal year 2023-24 general purpose revenues and program revenues taxes as recorded by State agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- <sup>(0)</sup> The amounts shown are fiscal year 2022-23 expenditures as recorded by State agencies.
- <sup>(p)</sup> The amounts shown are fiscal year 2023-24 expenditures as recorded by State agencies.
