This document is called an official statement because it is the only document the State has authorized for providing information about the Bonds. This document is not an offer or solicitation of an offer for the sale of the Bonds, and no unlawful offer, solicitation, or sale may occur through the use of this document or otherwise. This document is not a contract, and it provides no investment advice. Prospective investors should consult their advisors and legal counsel with questions about this document, the Bonds, and anything else related to the offering.

The purpose of this document is to provide prospective investors with information that may be important in making an investment decision. It may not be used for any other purpose without the State’s permission. The State is the author of this document and is responsible for its accuracy and completeness. The Underwriters are not the authors of this document. In accordance with their responsibilities under federal securities laws, the Underwriters are required to review the information in this document and must have a reasonable basis for their belief in the accuracy and completeness of its key representations.

Certain statements in this document are forward-looking statements that are based on expectations, estimates, projections, or assumptions. Forward-looking statements contained in this document are made as of the date hereof, and the State undertakes no obligation to update such statements to reflect subsequent events or circumstances. Actual results could differ materially from the anticipated results.

Some of the people who prepared, compiled, or reviewed the information in this document had specific functions that covered some of its aspects but not others. For example, financial staff may have been asked to assist with quantitative financial information, and legal counsel with specific documents or legal issues.

No dealer, broker, sales representative, or other person has been authorized by the State to give any information or to make any representations about the Bonds other than what is in this document. The information and expressions of opinion in this document may change without notice. The delivery of this document or any sale of the Bonds does not imply that there has been no change in the matters contained in this document since the date of this document. Material referred to in this document is not part of this document unless expressly incorporated.

The Underwriters may offer and sell the Bonds to certain dealers and dealer banks and banks acting as agents at prices lower than the public offering prices stated on the **inside front cover** hereof and such public offering prices may be changed from time to time by the Underwriters.

STATE OF WISCONSIN
\$400,775,000 GENERAL OBLIGATION REFUNDING BONDS OF
2024, SERIES 1
\$89,020,000 GENERAL OBLIGATION REFUNDING BONDS OF
2025, SERIES 1 (FORWARD DELIVERY)

INTRODUCTION

This Official Statement provides information about the \$400,775,000 General Obligation Refunding Bonds of 2024, Series 1 (**2024 Series 1 Bonds**) and \$89,020,000 General Obligation Refunding Bonds of 2025, Series 1 (Forward Delivery) (**2025 Series 1 Bonds**) (collectively, the 2024 Series 1 Bonds and the 2025 Series 1 Bonds are called the **Bonds**), which are being issued by the State of Wisconsin (**State**). This Official Statement incorporates by reference, and makes updates and additions to, **Parts I, II, and III** of the State of Wisconsin Continuing Disclosure Annual Report, dated December 22, 2023 (**2023 Annual Report**).

The Bonds are authorized under the Wisconsin Constitution and the Wisconsin Statutes, and are being issued pursuant to an authorizing resolution that the State of Wisconsin Building Commission (**Commission**) adopted on May 3, 2023.

The Commission, an agency of the State, is empowered by law to authorize, issue, and sell all of the State’s general obligations. The Commission is assisted and staffed by the State of Wisconsin Department of Administration (**Department of Administration**).

The Commission has authorized the Department of Administration to prepare this Official Statement. This Official Statement contains information furnished by the State or obtained from the sources indicated.

THE STATE

The State is located in the Midwest among the northernmost tier of states. The State ranks 20th among the states in population and 25th in land area. Wisconsin attained statehood in 1848, its capital is Madison, and its largest city is Milwaukee.

Information concerning the State, its financial condition, and its general obligation debt is included as **APPENDIX A**, which incorporates by reference **Parts II and III** of the 2023 Annual Report. **APPENDIX A** also makes updates and additions to Parts II and III of the 2023 Annual Report, including:

- Estimated General Fund condition statement and estimated General Fund tax collections for the 2023-24 and 2024-25 fiscal years, as included in a report provided by the Legislative Fiscal Bureau (**LFB**) on January 24, 2024 (**January 2024 LFB Report**).
- General Fund information for the 2023-24 fiscal year through January 31, 2024, which is presented on either a cash basis or an agency-recorded basis, and projected General Fund information for the remainder of the 2023-24 fiscal year, which is presented on a cash basis.

Requests for additional public information about the State may be directed to:

PLAN OF REFUNDING

General

The Commission is empowered by law to issue refunding bonds. The Bonds are being issued for the purposes and within the amounts authorized by the Wisconsin State Legislature (**Legislature**). See **APPENDIX B**.

The 2024 Series 1 Bonds are being issued for the current refunding (by purchasing Tendered Bonds as described below) of certain maturities, or portions of maturities, of general obligation bonds previously issued by the State for general governmental purposes (**Purchased Bonds**), the current refunding on May 1, 2024 of certain maturities of general obligation bonds previously issued by the State for general governmental purposes (**Current Refunded Bonds**), and to pay for costs of issuance.

The 2025 Series 1 Bonds are being issued for the current refunding on May 1, 2025 of certain maturities, or portions of maturities, of general obligation bonds previously issued by the State for general governmental purposes that are not tendered and purchased as described below (**Remaining Refunded Bonds**) (collectively, the Purchased Bonds, the Current Refunded Bonds, and the Remaining Refunded Bonds are called the **Refunded Bonds**) and to pay for costs of issuance.

The maturities, or portions of maturities, associated with the refunding are currently outstanding in the total principal amount of \$568,805,000. **APPENDIX D** identifies and provides information about the Refunded Bonds.

Invitation to Tender Bonds

On February 8, 2024, the State released an Invitation to Offers to Tender Bonds (**Invitation**), inviting holders of certain maturities of the State's outstanding general obligation bonds (**Invited Bonds**) to tender Invited Bonds for purchase by the State on the terms and conditions set forth in the Invitation. The purpose of the Invitation was to give the State the opportunity to retire the Invited Bonds on the date of issuance of the 2024 Series 1 Bonds (**Settlement Date**). The expiration date of the Invitation was February 23, 2024.

Pursuant to the Invitation, the owners of the Invited Bonds tendered their Invited Bonds (**Tendered Bonds**) for cash and, subject to the conditions set forth in the Invitation, the State expects to purchase some of the Tendered Bonds at the purchase prices and on the other terms set forth in the Invitation, as supplemented and amended including by the pricing notice. The Purchased Bonds will be canceled on the Settlement Date and will no longer be deemed outstanding. Funds to pay the purchase price of the Purchased Bonds and to pay the costs of the Invitation are expected to be provided from the proceeds of the 2024 Series 1 Bonds, and from other funds of the State.

This discussion is not intended to summarize the terms of the Invitation, or to solicit offers to tender Invited Bonds, and reference is made to the Invitation for a discussion of the terms of the Invitation and the conditions for settlement of the Invited Bonds validly tendered and accepted for purchase. The State has filed the Invitation

with the Municipal Securities Rulemaking Board (**MSRB**) through its Electronic Municipal Market Access (**EMMA**) system, and a copy is available from the State as provided on page **A-2**.

APPENDIX D identifies and provides information about the Purchased Bonds, which are included in the Refunded Bonds.

Current Refunding

Upon delivery of each series of the Bonds, a portion of the proceeds of those Bonds will be deposited into the State's Bond Security and Redemption Fund. Those proceeds of the 2024 Series 1 Bonds will be used to pay the purchase price of the Purchased Bonds on the Settlement Date and the redemption price of the Current Refunded Bonds, and those proceeds of the 2025 Series 1 Bonds will be used to pay the principal or redemption price of, and interest on, the Remaining Refunded Bonds on May 1, 2025.

Use of Proceeds and Pledge

The portions of the proceeds of the Bonds deposited into the Bond Security and Redemption Fund may be expended only for the payment of the principal or redemption price of, and interest on, or the purchase price of, the corresponding Refunded Bonds. However, notwithstanding the amounts in the Bond Security and Redemption Fund, there is irrevocably appropriated, as a first charge on all revenues of the State, a sum sufficient for the payment of the Refunded Bonds. Each year, for the purpose of determining the constitutional limit on public debt, the amounts held in the Bond Security and Redemption Fund will be subtracted from the amount of outstanding aggregate public debt of the State.

THE BONDS

General

The **inside front cover** of this Official Statement sets forth the maturity dates, principal amounts, interest rates, and other information for the Bonds. The Bonds are being issued in book-entry-only form, so the registered owner will be a securities depository or its nominee. The Commission has appointed The Depository Trust Company, New York, New York (**DTC**), as the securities depository for the Bonds. See "**THE BONDS; Book-Entry-Only Form**".

The Bonds will be dated their respective dates of delivery (expected to be March 14, 2024 for the 2024 Series 1 Bonds and February 4, 2025 for the 2025 Series 1 Bonds) and will bear interest from those respective dates, payable on May 1 and November 1 of each year, beginning on November 1, 2024 for the 2024 Series 1 Bonds and November 1, 2025 for the 2025 Series 1 Bonds.

Interest on the Bonds will be computed on the basis of a 360-day year of twelve 30-day months. So long as the Bonds are in book-entry-only form, payments of the principal of and interest on, each Bond will be paid to the securities depository.

The Bonds are being issued as fully-registered bonds in principal denominations of \$5,000 or multiples of \$5,000.

Security

The Bonds are direct and general obligations of the State. The Wisconsin Constitution pledges the full faith, credit, and taxing power of the State to make principal and interest payments on general obligations, and requires the Legislature to provide for their payment by appropriation. The Wisconsin Statutes establish, as security for the payment of all debt service on general obligations, a first charge upon all revenues of the State. Further, a sufficient amount of those revenues is irrevocably appropriated for the payment of the principal of, and interest on, general obligations, so that no subsequent legislative action is required to release such revenues. The Bonds are secured equally with all other outstanding general obligations issued by the State.

Redemption Provisions

Optional Redemption at Par

The 2024 Series 1 Bonds maturing on or after May 1, 2035 may be redeemed on May 1, 2034, or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date.

The 2025 Series 1 Bond maturing on May 1, 2036 may be redeemed on May 1, 2035, or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date.

Bonds that are subject to optional redemption may instead be purchased by the State at a purchase price equal to par (100% of the principal amount to be purchased) plus accrued interest to the purchase date. Bonds so purchased may be remarketed by the State.

Any such redemption or purchase is conditioned on the receipt by the Paying Agent of sufficient funds to pay the redemption or purchase price.

Selection of Bonds

If less than all the Bonds of a given series are to be redeemed or purchased at the option of the State, the particular maturities of such Bonds to be redeemed or purchased will be determined by the Capital Finance Director.

So long as the Bonds of a given series are in book-entry-only form, selection of the beneficial owners affected by the redemption or purchase will be made by the securities depository and its participants in accordance with their rules.

Notice of Redemption

So long as the Bonds are in book-entry-only form, notice of any redemption or purchase in lieu of redemption will be sent to the securities depository between 20 and 60 days before the redemption date.

Any notice of redemption (or purchase in lieu of redemption) may provide that the State retains the right to rescind the notice, and the related redemption or purchase, by giving a notice of rescission to the securities depository at any time prior to the scheduled redemption or purchase date.

Registration and Payment of Bonds

So long as the Bonds of a given series are in book-entry-only form, payment of the principal or purchase price of, and interest on, such Bonds on each payment date will be made by wire transfer to the securities depository or its nominee by the **Paying Agent**—which is the Secretary of Administration.

Ratings

The following ratings have been assigned to the Bonds:

<u>Rating</u>	<u>Rating Organization</u>
AAA	Kroll Bond Rating Agency, LLC
Aa1	Moody's Investors Service, Inc.
AA+	S&P Global Ratings

Any explanation of what a rating means may only be obtained from the rating organization giving the rating. A securities rating is not a recommendation to buy, sell, or hold securities and may be subject to revision or withdrawal at any time. Any downgrade or withdrawal of a rating may adversely affect the market price of the Bonds. The State may elect not to continue requesting ratings on the Bonds from any particular rating organization or may elect to request ratings on the Bonds from a different rating organization.

Sources and Uses of Funds

The proceeds from the sale of the Bonds are expected to be used as follows:

Sources	2024 Series 1 Bonds	2025 Series 1 Bonds	Total
Principal Amount	\$400,775,000.00	\$89,020,000.00	\$489,795,000.00
Original Issue Premium	62,067,801.35	13,848,085.25	75,915,886.60
State Funds	1,650,100.00	2,561,250.00	4,211,350.00

Uses			
Deposit to Bond Security and Redemption Fund ..	\$461,357,076.94	\$105,011,250.00	\$566,368,326.94
Underwriters' Discount	1,727,329.24	358,946.73	2,086,275.97
Costs of Issuance	1,408,495.17	59,138.52	1,467,633.69
TOTAL USES	<u>\$464,492,901.35</u>	<u>\$105,429,335.25</u>	<u>\$569,922,236.60</u>

Book-Entry-Only Form

The Bonds are being initially issued in book-entry-only form. Purchasers of the Bonds will not receive bond certificates but instead will have their ownership in the Bonds recorded in the book-entry system.

Bond certificates are to be issued and registered in the name of a nominee of DTC, which acts as a securities depository for the Bonds. Ownership of the Bonds by the purchasers is shown in the records of brokers and other organizations participating in the DTC book-entry system (**DTC Participants**). All transfers of ownership in the Bonds must be made, directly or indirectly, through DTC Participants.

Payment

The State will make all payments of principal or purchase price of, and interest on, the Bonds to DTC. Owners of the Bonds will receive payments through the DTC Participants.

Notices and Voting Rights

The State will provide any redemption notices or other communications about the Bonds to DTC. Owners of the Bonds will receive any redemption notices or other communications through the DTC Participants. In any situation involving voting rights, DTC will not vote but will rather give a proxy through the DTC Participants.

Redemption or Purchase

If less than all the Bonds of a given maturity are being redeemed or purchased in lieu of redemption, DTC's practice is to determine by lottery the amount of the Bonds to be redeemed or purchased from each DTC Participant.

Discontinued Service

In the event that participation in DTC's book-entry system were to be discontinued without a successor securities depository being appointed, bond certificates would be executed and delivered to DTC Participants.

Further Information

Further information concerning DTC and DTC's book-entry system is available at www.dtcc.com. The State is not responsible for any information available on DTC's web site. That information may be subject to change without notice.

The State is not responsible for any failure by DTC or any DTC Participant to transfer payments or notices to the owners of the Bonds or to follow the procedures established by DTC for its book-entry system.

Redemption and Payment if Bonds Are Not in Book-Entry-Only Form

In the event the Bonds were not in book-entry-only form, how the Bonds are redeemed (or purchased in lieu of redemption) and paid would differ from the descriptions above. Bonds would be selected for redemption or purchase by lot. Notice of any redemption or purchase would be mailed, postage prepaid, between 20 and 60 days before the redemption date, to the registered owners of any Bonds to be redeemed or purchased. Any notice of redemption (or purchase in lieu of redemption) could provide that the State retains the right to rescind the notice, and the related redemption or purchase, by giving a notice of rescission to the affected registered owners at any time prior to the scheduled redemption or purchase date.

Payment of principal or purchase price would be made by check or draft issued upon the presentation and surrender of the Bonds at the principal office of the Paying Agent, as designated by the Commission. Payment of interest due on the Bonds would be made by check or draft mailed to the registered owner shown in the registration book at the close of business on the record date—which is the 15th day (whether or not a business day) of the calendar month before the interest payment date.

UNDERWRITING

General

The Bonds are being purchased by the **Underwriters** listed on the **front cover**, for which BofA Securities, Inc. is acting as the representative (**Representative**).

- The Underwriters have agreed, subject to certain conditions, to purchase the 2024 Series 1 Bonds from the State at an aggregate purchase price of \$461,115,472.11, reflecting an original issue premium of \$62,067,801.35 and an Underwriters' discount of \$1,727,329.24. The Underwriters' obligations are subject to certain conditions, and they will be obligated to purchase all the 2024 Series 1 Bonds if any 2024 Series 1 Bonds are purchased.
- The Underwriters have agreed, subject to certain conditions, to purchase the 2025 Series 1 Bonds from the State at an aggregate purchase price of \$102,509,138.52, reflecting an original issue premium of \$13,848,085.25 and an Underwriters' discount of \$358,946.73. The Underwriters' obligations are subject to certain conditions, and they will be obligated to purchase all the 2025 Series 1 Bonds if any 2025 Series 1 Bonds are purchased.

The Purchased Bonds are being tendered under the terms of the Invitation through BofA Securities, Inc. and Samuel A. Ramirez & Co. Inc., as Dealer Managers (**Dealer Managers**). For their services as Dealer Managers, the Dealer Managers will be compensated (**Dealer Manager Fee**) in an amount equal to a percentage of the aggregate principal amount of the Purchased Bonds. The Dealer Manager Fee is expected to be paid from proceeds of the 2024 Series 1 Bonds.

The Underwriters have agreed to reoffer the Bonds at the public offering prices set forth on the **inside front cover**. The Bonds may be offered and sold to certain dealers (including dealers depositing the Bonds into investment trusts) at prices lower than such public offering prices, and such prices may be changed, from time to time, by the Underwriters.

Certain of the Underwriters may have entered into distribution agreements with third-party broker-dealers, under which the Underwriters may distribute municipal securities to investors through the respective financial advisors or electronic trading platforms of such third-party broker-dealers. As part of these arrangements, the Underwriters may share a portion of their underwriting compensation with such third-party broker-dealers.

Certain legal matters will be passed upon for the Underwriters by their counsel, Ice Miller LLP.

The Underwriters and their respective affiliates include full-service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment

management, investment research, principal investment, hedging, market making, brokerage, and other financial and non-financial activities and services. In the course of their various business activities, the Underwriters and their respective affiliates, officers, directors, and employees may purchase, sell, or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currency, credit default swaps, and other financial instruments for their own accounts and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities, or other instruments of the State (directly, as collateral securing other obligations, or otherwise) or of others that have relationships with the State. The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color, or trading ideas or publish or express independent research views in respect of such assets, securities, or instruments and may at any time hold, or recommend to clients that they should acquire, long or short positions in such assets, securities, or instruments.

If an Underwriter or its affiliate is an owner of Refunded Bonds, that Underwriter or affiliate would receive a portion of the proceeds from the issuance of the Bonds in connection with the redemption or purchase of those Refunded Bonds.

Priority of Allocations of the 2024 Series 1 Bonds

The State has advised the Underwriters that any holder of the Invited Bonds who tenders any Invited Bonds in the Tender Offer and who submits an order to purchase 2024 Series 1 Bonds may, subject to the following sentence, have a preference of allocation of the 2024 Series 1 Bonds up to the principal amount of such holder's Tendered Bonds. The Representative has the discretion to accept orders outside of the State's advised priorities if it determines that it is in the best interests of the Underwriters of the 2024 Series 1 Bonds, as provided in the rules of the MSRB. The State also has the discretion to alter its advised priorities.

Certain Forward Delivery Considerations, Acknowledgments, and Risks

The State and the Underwriters, acting through the Representative, have entered into a forward delivery bond purchase agreement for the 2025 Series 1 Bonds (**Forward Delivery Purchase Agreement**) dated February 27, 2024. Subject to the terms of the Forward Delivery Purchase Agreement, the State expects to issue and deliver the 2025 Series 1 Bonds on February 4, 2025, or on such later date (no later than April 30, 2025) as is mutually agreed upon by the State and the Representative (**Forward Settlement Date**). The following is a description of certain provisions of the Forward Delivery Purchase Agreement. This description is not to be considered a full statement of the terms of the Forward Delivery Purchase Agreement and accordingly is qualified by reference thereto and is subject to the full text thereof.

The obligation of the Underwriters to purchase the 2025 Series 1 Bonds from the State is subject to the satisfaction of certain conditions as of March 14, 2024 (**Preliminary Closing Date**), and on the Forward Settlement Date.

Until such time as the 2025 Series 1 Bonds are issued and delivered by the State and purchased by the Underwriters on the Forward Settlement Date, certain information contained in this Official Statement may change in a material respect. The State agrees in the Forward Delivery Purchase Agreement to update the Official Statement, if necessary in the judgment of the Representative or the State, so that the Official Statement as amended or supplemented does not contain any untrue statement of a material fact or omit to state a material fact that is necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading.

Additionally, the State agrees in the Forward Delivery Purchase Agreement to prepare an updated Official Statement, dated a date not more than twenty-five nor less than ten days prior to the Forward Settlement Date, which, as of such date, will not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading (**Updated Official Statement**). References to the Official Statement in the preceding paragraphs as

of a specific date shall mean (i) during the period from the date of this Official Statement to but not including the date of delivery of the Updated Official Statement to the Representative, this Official Statement, and (ii) from and after the date of delivery of the Updated Official Statement, the Updated Official Statement, in each case as amended or supplemented.

Conditions of Settlement

The issuance and purchase of the 2025 Series 1 Bonds on the Forward Settlement Date are subject to the satisfaction of certain conditions set forth in the Forward Delivery Purchase Agreement, including, among other things, the delivery to the Representative of certain documents and legal opinions on and as of the Preliminary Closing Date and certain additional documents and legal opinions, and the satisfaction of other conditions, on and as of the Forward Settlement Date, including the delivery to the Representative of: (i) the opinion of Bond Counsel relating to the 2025 Series 1 Bonds, substantially in the form and to the effect set forth in **APPENDIX C**, (ii) the Updated Official Statement, and (iii) written evidence satisfactory to the Representative that Kroll Bond Rating Agency, LLC, Moody's Investors Service, Inc., and S&P Global Ratings continue to rate (at an investment grade level) the 2025 Series 1 Bonds. Changes or proposed changes in federal or state laws, court decisions, regulations or proposed regulations or rulings of administrative agencies occurring or in effect prior to the Forward Settlement Date or the failure by the State to provide closing documents of the type customarily required in connection with the issuance of state and local government tax-exempt bonds could prevent those conditions from being satisfied. None of the 2025 Series 1 Bonds will be issued unless all of the 2025 Series 1 Bonds are issued and delivered on the Forward Settlement Date.

Termination of Forward Delivery Purchase Agreement

The Representative has the right, between the date of the Forward Delivery Purchase Agreement and the Forward Settlement Date, by written notice to the State, to cancel the Underwriters' obligation to purchase the 2025 Series 1 Bonds if, in the Representative's reasonable judgment, any of the following events occur during that time:

- There shall have been a Change in Law. A "Change in Law" means (i) any change in or addition to applicable federal or state law, whether statutory or as interpreted by the courts or by federal or state agencies, including any changes in or new rules, regulations or other pronouncements or interpretations by federal or state agencies, (ii) any legislation enacted by the Congress of the United States (if such enacted legislation has an effective date which is on or before the Forward Settlement Date), (iii) any law, rule, or regulation enacted by any governmental body, department, or agency (if such enacted law, rule, or regulation has an effective date which is on or before the Forward Settlement Date), or (iv) any judgment, ruling or order issued by any court or administrative body, which in any such case would (A) as to the Underwriters, prohibit the Underwriters from completing the underwriting of the 2025 Series 1 Bonds or selling the 2025 Series 1 Bonds or beneficial ownership interests therein to the public, or (B) as to the State, make the completion of the issuance, sale, or delivery of the 2025 Series 1 Bonds illegal; provided, however, that such change in or addition to law, legislation, law, rule, or regulation or judgement, ruling, or order shall have become effective, been enacted, or been issued, as the case may be, after the date of the Forward Delivery Purchase Agreement.
- Bond Counsel is unable to issue an opinion substantially in the form of **APPENDIX C** as to the tax-exempt status of interest on the 2025 Series 1 Bonds.
- Legislation shall have been enacted by the Congress of the United States, or a decision by a court of the United States shall be rendered, or a ruling, regulation, proposed regulation, or statement by or on behalf of the U.S. Securities and Exchange Commission (SEC) or other governmental agency having jurisdiction of the subject matter shall be made, to the effect that any obligations of the general character of the 2025 Series 1 Bonds are not exempt from the registration, qualification, or other requirements of

the Securities Act of 1933, the Securities Exchange Act of 1934, or the Trust Indenture Act of 1939 or otherwise, or would be in violation of any provision of the federal securities laws.

- The State shall have defaulted in the payment of its general obligation debt.
- As of the Forward Settlement Date, the 2025 Series 1 Bonds are not rated (or any rating on the 2025 Series 1 Bonds is suspended or reduced below investment grade) by Kroll Bond Rating Agency, LLC, Moody's Investors Service, Inc., or S&P Global Ratings.
- A stop order, cease-and-desist order, injunction, no-action letter, ruling, regulation, or official statement by the SEC, its staff, or any other governmental agency having jurisdiction of the subject matter shall have been issued or made or any other event occurs, the effect of which is that the adoption of the Resolution or the issuance, offering, or sale of the 2025 Series 1 Bonds as contemplated in the Forward Delivery Purchase Agreement or in this Official Statement and the Updated Official Statement, is or would be in violation of any provision of the federal securities laws, including the Securities Act of 1933, as amended and then in effect, the Securities Exchange Act of 1934, as amended and as then in effect, or the Trust Indenture Act of 1939, as amended and as then in effect.
- This Official Statement, as of its date (or, if amended within the period ending 60 days after the Preliminary Closing Date, then as of the date of such amendment), or the Updated Official Statement, as of its date (or, if amended, then as of the date of such amendment), contains any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements made therein, in the light of the circumstances under which they were made, not misleading.

Agreement of Purchasers of the 2025 Series 1 Bonds

By submitting an order for the 2025 Series 1 Bonds, every purchaser of a 2025 Series 1 Bond ("Purchaser") shall be deemed to have committed to purchase its allotted share of the 2025 Series 1 Bonds.

By submission of its order, the Purchaser confirms that it has reviewed this Official Statement, has considered the risks associated with purchasing the 2025 Series 1 Bonds and is duly authorized to purchase the 2025 Series 1 Bonds. The Purchaser understands that the 2025 Series 1 Bonds are being sold on a "delayed delivery" or "forward" basis, and the Purchaser will purchase and agree to accept delivery of such 2025 Series 1 Bonds from the Underwriters on or about the Forward Settlement Date, pursuant to the Forward Delivery Purchase Agreement.

Upon execution of the Forward Delivery Purchase Agreement, the obligation of the Purchaser to take delivery of the 2025 Series 1 Bonds shall be unconditional unless the Representative terminates the Forward Delivery Purchase Agreement pursuant to the terms in the Forward Delivery Purchase Agreement prior to the Forward Settlement Date. The obligations of the Underwriters to accept delivery of and pay for the 2025 Series 1 Bonds on the Forward Settlement Date shall be subject to the accuracy in all material respects of the representations and warranties on the part of the State contained in the Forward Delivery Purchase Agreement as of its date and as of the Forward Settlement Date, to the accuracy in all material respects of the statements of the officers and other officials of the State, as well as of the other individuals referred to therein, made in any certificates or other documents furnished pursuant to the provisions thereof, to performance by the State of their respective obligations to be performed thereunder at or prior to the Forward Settlement Date and to the conditions set forth in the Forward Delivery Purchase Agreement as summarized in this Official Statement.

Except as otherwise described above, by submission of its order, the Purchaser shall be deemed to acknowledge and agree that it will not be able to withdraw its order and will not otherwise be excused from performance of its obligations to take up and pay for the 2025 Series 1 Bonds on the Forward Settlement Date because of market or credit changes, including but not limited to changes in the financial condition, operations, performance, properties or prospects of the State from the date of the Forward Delivery Purchase Agreement to the Forward Settlement Date. By submission of its order, the Purchaser shall be deemed to acknowledge and agree that it

will remain obligated to purchase the 2025 Series 1 Bonds in accordance with the terms hereof even if the Purchaser decides to sell such 2025 Series 1 Bonds after the date of this Official Statement.

The State is not and will not be a party to any agreement between the Purchaser and the Representative relating to the purchase of the 2025 Series 1 Bonds, and the State is not in any way responsible for the performance thereof or for any representations or warranties contained therein.

BY PLACING AN ORDER WITH THE UNDERWRITERS FOR THE PURCHASE OF THE 2025 SERIES 1 BONDS, EACH PURCHASER ACKNOWLEDGES AND AGREES THAT HE OR SHE HAS REVIEWED THIS OFFICIAL STATEMENT IN ITS ENTIRETY AND HAS PLACED SUCH AN ORDER WITH FULL KNOWLEDGE AND UNDERSTANDING OF THE DELAYED DELIVERY CLOSING CONDITIONS AND RISKS AND IS OBLIGATED TO PURCHASE THE 2025 SERIES 1 BONDS WHICH ARE THE SUBJECT OF SUCH ORDER, SO LONG AS THE CONDITIONS OF THE FORWARD DELIVERY PURCHASE AGREEMENT FOR THE DELIVERY OF THE 2025 SERIES 1 BONDS ARE SATISFIED AND THE REPRESENTATIVE HAS NOT ELECTED TO TERMINATE THE FORWARD DELIVERY PURCHASE AGREEMENT.

APPENDIX E from the Preliminary Official Statement, dated February 8, 2024, has been removed from this Official Statement in its entirety as such form delayed delivery contract was not and will not be required by the Representative for any Purchaser.

Additional Risks Related to Forward Delivery Period

Between the date of the Forward Delivery Purchase Agreement and the Forward Settlement Date (**Forward Delivery Period**), certain information contained in this Official Statement may change in material respects. Any changes in such information will not permit the Representative to terminate the Forward Delivery Purchase Agreement or release the purchasers of their obligation to purchase the 2025 Series 1 Bonds unless the change reflects an event described under “*Termination of Forward Delivery Purchase Agreement*” above. Purchasers of the 2025 Series 1 Bonds are subject to certain additional risks, some of which are described below.

Ratings Risk. No assurance can be given that the ratings assigned to the 2025 Series 1 Bonds on the Forward Settlement Date will not be different from those assigned as of the Preliminary Closing Date to the 2025 Series 1 Bonds. Issuance of the 2025 Series 1 Bonds and the Underwriters’ obligations under the Forward Delivery Purchase Agreement are not conditioned upon the assignment of any particular ratings for the 2025 Series 1 Bonds or the maintenance of the initial ratings of the 2025 Series 1 Bonds.

Secondary Market Risk. The Underwriters are not obligated to make a secondary market for the 2025 Series 1 Bonds, and no assurance can be given that a secondary market will exist for the 2025 Series 1 Bonds during the Forward Delivery Period or at any time thereafter. Prospective purchasers of the 2025 Series 1 Bonds should assume that there will be no secondary market for the 2025 Series 1 Bonds during the Forward Delivery Period.

Market Value Risk. The market value of the 2025 Series 1 Bonds as of the Forward Settlement Date may be affected by a variety of factors, including, without limitation, general market conditions, the financial condition of the State, and federal and state tax, securities, and other laws. The market value of the 2025 Series 1 Bonds as of the Forward Settlement Date could therefore be higher or lower than the price to be paid by the initial purchasers of the 2025 Series 1 Bonds, and that difference could be substantial. Neither the State nor the Underwriters make any representations as to the expected market value of the 2025 Series 1 Bonds as of the Forward Settlement Date.

Tax Law Risk. Subject to the other conditions of closing and delivery and the Representative’s rights of termination described above, the Forward Delivery Purchase Agreement obligates the State to deliver, and the Underwriters to accept, the 2025 Series 1 Bonds if the State delivers an opinion of Bond Counsel relating to the 2025 Series 1 Bonds substantially in the form and to the effect set forth in **APPENDIX C**. Notwithstanding that

the enactment of new legislation, new court decisions or the promulgation of new regulations or rulings might diminish the value of, or otherwise affect, the exclusion from gross income of interest payable on “state or local bonds” (such as the 2025 Series 1 Bonds) for federal income tax purposes, the State might be able to satisfy the requirements for the delivery of the 2025 Series 1 Bonds. In such event, the purchasers would be required to accept delivery of the 2025 Series 1 Bonds. Prospective purchasers are encouraged to consult their tax advisors regarding the likelihood of any such changes in tax law and the consequences of such changes to the purchasers. See “**TAX MATTERS**” herein.

OTHER INFORMATION

Limitations on Issuance of General Obligations

General obligations issued by the State are subject to debt limits set forth in the Wisconsin Constitution and the Wisconsin Statutes. There is an annual debt limit of three-quarters of one percent, and a cumulative debt limit of five percent, of the aggregate value of all taxable property in the State. Currently, the annual debt limit is \$6,319,902,398 and the cumulative debt limit is \$42,132,682,650. Funding or refunding obligations (such as the Bonds) are not subject to the annual limit but are accounted for in applying the cumulative debt limit. Accrued interest on any obligation that is not paid during the fiscal year in which it accrues is treated as debt and taken into account for purposes of the debt limitations.

As of February 1, 2024, general obligations of the State were outstanding in the aggregate principal amount of \$6,816,631,000. The issuance of the Bonds will not cause the State to exceed its annual debt limit or its cumulative debt limit.

Borrowing Plans

General Obligations

The 2024 Series 1 Bonds will be the second series of general obligations to be issued in calendar year 2024. On February 6, 2024, the State sold one series of general obligations for governmental purposes in the principal amount of \$248 million, for delivery on or about February 28, 2024.

In addition, the Commission has authorized the issuance of the following general obligations:

- Up to \$10 million of additional general obligations for the refunding of general obligation bonds previously issued for general governmental purposes. The amount and timing of any sale and issuance of any additional general obligations for refunding purposes depend, among other factors, on market conditions.
- General obligations for the funding of the State’s outstanding general obligation extendible municipal commercial paper notes (**EMCP Notes**) and variable rate demand obligation notes (**VRDO Notes**), which were outstanding in the aggregate principal amount of \$244 million as of February 1, 2024. The amount and timing of any issuance of general obligations for the funding of the EMCP or VRDO Notes depend on a decision to fund such obligations with a different form of variable-rate obligations or with bonds bearing fixed interest rates.

The Commission likely will be asked to authorize the issuance of additional general obligations for general governmental purposes in calendar year 2024. The amount and timing of issuances in calendar year 2024 of general obligations for this purpose depend on disbursements from the State Capital Improvement Fund for authorized purposes.

The 2025 Series 1 Bonds will be issued in calendar year 2025. The Commission likely will be asked to authorize the issuance of one or more series of general obligation for general governmental purposes in calendar year 2025. In addition, any authorization of general obligations for refunding purposes adopted in calendar year 2024 will continue into calendar year 2025, with the amount and timing of any sale and issuance of general obligations for refunding purposes depending, among other factors, on market conditions.

Other Obligations

The State sold one series of transportation revenue refunding bonds in calendar year 2023, in the principal amount of \$43 million, for delivery on or about April 2, 2024. The authorization, sale, and issuance of any transportation revenue obligations for the financing of transportation facilities and highway projects depend on the expenditures for such projects and market conditions. The Commission has authorized up to \$300 million of transportation revenue obligations to refund outstanding transportation revenue bonds. The amount and timing of any additional issuance of transportation revenue refunding bonds depend, among other factors, on market conditions.

The State has not issued any general fund annual appropriation refunding bonds in calendar year 2024. The amount and timing of any issuance of any general fund annual appropriation refunding bonds depend, among other factors, on market conditions.

The State has issued one series of environmental improvement fund revenue bonds in the principal amount of \$150 million in calendar year 2024. The sale and issuance of any additional environmental improvement fund revenue bonds depend, among other factors, on disbursement of funds from the State's Environmental Improvement Fund and market conditions.

The State has not issued any master lease certificates of participation in calendar year 2024. The amount and timing of any issuance of master lease certificates of participation depend, among other factors, on originations in the State's master lease program and market conditions.

The State does not currently intend to issue operating notes for the 2023-24 fiscal year.

Reference Information About the Bonds

Information about the Bonds is provided for reference in the tables on the **inside front cover** of this Official Statement. The CUSIP number for each maturity has been obtained from a source the State believes to be reliable, but the State is not responsible for the correctness of the CUSIP numbers. The Underwriters have provided the reoffering yields and prices for the Bonds.

Municipal Advisor

Public Resources Advisory Group, Inc. (**Municipal Advisor**) has been retained by the State to perform professional services in the capacity of municipal advisor in connection with certain aspects of the issuance of the Bonds. The Municipal Advisor is a registered municipal advisor with the SEC and the MSRB. The Municipal Advisor has provided financial advisor services and advice on the Invitation, the plan of refunding, and the structure of the Bonds. The Municipal Advisor also reviewed certain legal and disclosure documents, including this Official Statement, for financial matters, but the Municipal Advisor makes no representation, warranty, or guarantee regarding the accuracy or completeness of the information in this Official Statement. The Municipal Advisor also has reviewed the pricing of the Bonds by the Underwriters. The Municipal Advisor will receive compensation contingent upon the sale and delivery of each series of the Bonds.

Legal Investment

State law provides that the Bonds are legal investments for the following:

- Banks, trust companies, bankers, savings banks and institutions, building and loan associations, savings and loan associations, credit unions, investment companies, and other persons or entities carrying on a banking business.
- Personal representatives, guardians, trustees, and other fiduciaries.
- The State and all public officers, municipal corporations, political subdivisions, and public bodies.

Legal Opinions

Bond Opinion

Legal matters relating to the authorization, issuance, and sale of the Bonds are subject to the approval of **Bond Counsel**, which is Foley & Lardner LLP. When the Bonds of each series are delivered, Bond Counsel will deliver an approving opinion in substantially the applicable form shown in **APPENDIX C**.

Attorney General

As required by law, the office of the Attorney General will examine a certified copy of all proceedings leading to issuance of the Bonds. When the Bonds of each series are delivered, the Attorney General will deliver an opinion on the regularity and validity of the proceedings with respect to such Bonds. The Attorney General's opinion will also state that there is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, restraining or enjoining the issuance, sale, execution, or delivery of the Bonds, and there also is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, in any way contesting or affecting (1) the titles to their respective offices of any of the State officers involved in the issuance of the Bonds, (2) the validity of the Bonds or any of the proceedings taken with respect to the issuance, sale, execution, or delivery of the Bonds, or (3) the pledge or application of any moneys or security provided for the payment of the Bonds.

Other Legal Matters

The State and its officers and employees are defendants in numerous lawsuits. The State does not expect that any pending litigation will be finally determined so as to result individually or in the aggregate in final judgments against the State that would materially affect the State's ability to pay the principal of and interest on the Bonds.

TAX MATTERS

Tax Exemption

Federal Income Tax

In the opinion of Bond Counsel, under existing law, interest on the Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, interest on the Bonds is taken into account in determining "adjusted financial statement income" for purposes of computing the federal alternative minimum tax imposed on certain corporations. The State must comply with certain requirements of the Internal Revenue Code for interest on the Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to comply with those requirements to the extent it may lawfully do so. Its failure to do so may cause interest on the Bonds to be included in gross income for federal income tax purposes, perhaps even starting from the date on which the Bonds are issued. No provision is made for an increase in interest rates or a redemption of the Bonds in the event interest on the Bonds is included in gross income.

Each opinion of Bond Counsel will be based on legal authorities that are current as of its date, will cover certain matters not directly addressed by those authorities, and will represent Bond Counsel's judgment regarding the proper treatment of the applicable Bonds for federal income tax purposes. It will not be binding on the Internal Revenue Service (**IRS**) or the courts and will not be a guaranty of result. As to questions of fact, Bond Counsel will rely upon certified proceedings and certifications of public officials and others without independently undertaking to verify them.

Bond Counsel will express no opinion about other federal tax matters regarding the Bonds. Other federal tax law provisions may adversely affect the value of an investment in the Bonds for particular owners of those Bonds. Prospective investors should consult their own tax advisors about the tax consequences of owning a Bond.

The IRS has an active tax-exempt bond enforcement program. Under current IRS procedures, owners of the Bonds would have little or no right to participate in an IRS examination of the Bonds. Moreover, it may not be practicable to obtain judicial review of IRS positions with which the State disagrees. Any action of the IRS, including selection of the Bonds for examination, the conduct or conclusion of such an examination, or an examination of obligations presenting similar tax issues, may affect the marketability of the Bonds.

Current and future legislative proposals, if enacted into law, may cause the interest on the Bonds to be subject, directly or indirectly, to federal income taxation or otherwise prevent the owners of the Bonds from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals may also affect the marketability of the Bonds. Prospective investors should consult their own tax advisors about the Act and other federal legislative proposals.

Premium Bonds

Bonds purchased, whether at original issuance or otherwise, for an amount greater than their principal amount payable at maturity will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, such as the Bonds, the interest on which is excluded from gross income for federal income tax purposes.

During each taxable year, an owner of Bonds with amortizable bond premium must reduce his, her, or its tax basis in the Bond by the amount of the amortizable bond premium that is allocable to the portion of that taxable year during which the owner owned the Bond. The adjusted tax basis in a Bond will be used to determine taxable gain or loss upon a disposition (for example, upon a sale, exchange, or payment at maturity) of the Bond.

Owners of Bonds purchased at a premium should consult their own tax advisors with respect to the federal tax consequences of owning such Bonds, including computation of their tax basis and the effect of any purchase of Bonds that is not made in the initial offering at the issue price. Owners of such Bonds should also consult their own tax advisors with respect to the state and local tax consequences of owning those Bonds.

State Tax Considerations

General

In addition to the federal income tax consequences described above, potential investors should consider the state income tax consequences of the acquisition, ownership, and disposition of the Bonds. State income tax law may differ substantially from the corresponding federal law, and the foregoing is not intended to describe any aspect of the income tax laws of any state. Therefore, potential investors should consult their own tax advisors with respect to the various state tax consequences of an investment in the Bonds.

State of Wisconsin Income and Franchise Taxes

Interest on the Bonds is not exempt from current State of Wisconsin income or franchise taxes.

CONTINUING DISCLOSURE

The State has made an undertaking to enable brokers, dealers, and municipal securities dealers, in connection with their participation in the offering of the Bonds, to comply with Rule 15c2-12(b)(5) adopted by the SEC under the Securities Exchange Act of 1934. In the undertaking, the State has agreed, for the benefit of the beneficial owners of the Bonds, to provide an annual report presenting certain financial information and operating data about the State (**Annual Reports**). By December 27 of each year, the State has agreed to file the Annual Report with the MSRB through its EMMA system. The State has also agreed to provide to the MSRB notices of the occurrence of certain events specified in the undertaking.

[Part I of the 2023 Annual Report](#), which contains information on the undertaking, including the State's Master Agreement on Continuing Disclosure (Amended and Restated March 1, 2019), the Addendum Describing

Annual Report for General Obligations, and the form of Supplemental Agreement that will apply the Master Agreement and the Addendum to the Bonds, is included by reference as part of this Official Statement.

The undertaking also describes the consequences if the State fails to provide any required information. The State must report the failure to the MSRB. In the last five years, the State has not failed to comply in any material respect with this, or any similar, undertaking.

Dated: February 27, 2024

STATE OF WISCONSIN

/S/ TONY EVERS

Governor Tony Evers, Chairperson
State of Wisconsin Building Commission

/S/ KATHY K. BLUMENFELD

Kathy K. Blumenfeld, Secretary
State of Wisconsin Department of Administration

/S/ NAOMI DE MERS

Naomi De Mers, Secretary
State of Wisconsin Building Commission

APPENDIX A

CERTAIN INFORMATION ABOUT THE STATE

This Appendix includes by reference information concerning the State of Wisconsin (**State**), contained in [Parts II and III of the State of Wisconsin Continuing Disclosure Annual Report, dated December 22, 2023 \(2023 Annual Report\)](#), which can be obtained as described below. This Appendix also makes updates and additions to the information presented in Part II of the 2023 Annual Report, including but not limited to:

- Estimated General Fund condition statement and estimated General Fund tax collections for the 2023-24 and 2024-25 fiscal years, as included in a report provided by the Legislative Fiscal Bureau (**LFB**) on January 24, 2024 (**January 2024 LFB Report**).
- General Fund information for the 2023-24 fiscal year through January 31, 2024, which is presented on either a cash basis or an agency-recorded basis, and projected General Fund information for the remainder of the 2023-24 fiscal year, which is presented on a cash basis.

[Part II of the 2023 Annual Report](#) contains general information about the State. More specifically, that part presents information about the following matters:

- Environmental, social, and governance factors
- State's revenue and expenditures
- State's operations, financial procedures, accounting, and financial reporting
- Organization of, and services provided by, the State
- Budget process and fiscal controls
- State budget (including results of 2022-23 fiscal year and summary of 2023-25 biennial budget)
- Potential effects of litigation
- State obligations
- Employee pension funds and other post-employment benefits
- State Investment Board
- Statistical information about the State's population, income, and employment

The State's audited General Purpose External Financial Statements and independent auditor's report provided by the State Auditor for the fiscal year ended June 30, 2023, prepared in conformity with generally accepted accounting principles (**GAAP**) for governments as prescribed by the Governmental Accounting Standards Board, are included as [APPENDIX A](#) to Part II of the 2023 Annual Report.

[Part III of the 2023 Annual Report](#) contains information concerning general obligations issued by the State. That part discusses the security provisions for general obligations (including the flow of funds to pay debt service on general obligations) and presents data about the State's outstanding general obligations and the portion of outstanding general obligations that is revenue supported.

The 2023 Annual Report and the Annual Comprehensive Financial Report for the fiscal year ended June 30, 2023 were both filed with the Municipal Securities Rulemaking Board (**MSRB**) through its Electronic Municipal Market Access (**EMMA**) system. The 2023 Annual Report and the Annual Comprehensive Financial Report are also available from the part of the Capital Finance Office web site called "Official Disclosure for Bonds, Notes, and Other Securities Issued by the State of Wisconsin" and the State investor relations web site. The Capital Finance Office web site and the State investor relations web site are located at the following respective addresses:

doa.wi.gov/capitalfinance

The State has independently provided periodic reports on General Fund financial information. These reports are not required by any of the State's undertakings to provide information concerning the State's securities. These reports are available on the State's Capital Finance Office web site that is listed above and were also filed as additional voluntary information with the MSRB through its EMMA system; however, the reports are not incorporated by reference into this Official Statement or Part II of the 2023 Annual Report. The State is not obligated to provide such reports at any time in the future.

After publication and filing of the 2023 Annual Report, certain changes or events have occurred that affect items discussed in the 2023 Annual Report. Listed below, by reference to particular sections of Part II of the 2023 Annual Report, are changes or additions to the information contained in those particular sections. When changes occur, the State may or may not (unless required to do so under the State's undertakings) file notices with the MSRB. However, the State has filed, and expects to continue to file, additional and other voluntary information with the MSRB, some of which may not be listed event notices required to be filed under the State's undertakings.

This Official Statement may include changes or additions that were released after the date of the Preliminary Official Statement (February 8, 2024). Any such changes or additions are identified accordingly.

State Budget; Budget for 2023-25 Biennium (Part II; Pages 35-37). Update with the following information.

January 2024 LFB Report – General Fund Condition Statement

The January 2024 LFB Report includes an updated estimated General Fund condition statement for each fiscal year of the 2023-25 biennium. The net General Fund balance for the end of the biennium (June 30, 2025) is projected to be \$3.2 billion. This is \$810.8 million lower than the balance that was projected at the time of the enactment of the 2023-25 biennial budget (**2023 Wisconsin Act 19**), as modified to incorporate the fiscal year 2022-23 ending balance as shown in the State's Annual Fiscal Report for fiscal year 2022-23.

The following table provides the updated estimated General Fund condition statement for each fiscal year of the 2023-25 biennium. The table also includes, for comparison, the estimated General Fund condition statement for each fiscal year of the 2023-25 biennium, as included in 2023 Wisconsin Act 19.

A complete copy of the January 2024 LFB Report, which includes a national economic forecast and its application to the State's General Fund tax revenue estimates, is included at the end of this Appendix A. In addition, the State has filed the January 2024 LFB Report with the MSRB through its EMMA system, and a copy is available from the State as provided on page [A-2](#).

State Budget; Estimated General Fund Tax Collections for 2023-25 Biennium (Part II; Pages 37-38).
Update with the following information.

January 2024 LFB Report – General Fund Tax Collections

The January 2024 LFB Report also includes updated estimated General Fund tax collections for each fiscal year of the 2023-25 biennium. The estimated General Fund tax collections are \$21.056 billion for the 2023-24 fiscal year and \$21.772 billion for the 2024-25 fiscal year. These amounts are \$195.2 million and \$241.4 million, respectively, lower than the estimated General Fund tax collections as included in 2023 Wisconsin Act 19.

The following table provides the estimated General Fund tax collections for each fiscal year of the 2023-25 biennium. The table also includes, for comparison, the estimated General Fund tax collections for each year of the 2023-25 biennium, as included in a report provided by LFB dated May 15, 2023 (**May 2023 LFB Report**) and in 2023 Wisconsin Act 19.

A complete copy of the January 2024 LFB Report, which includes a national economic forecast and its application to the State’s General Fund tax revenue estimates, is included at the end of this Appendix A. In addition, the State has filed the January 2024 LFB Report with the MSRB through its EMMA system, and a copy is available from the State as provided on page [A-2](#).

General Fund Information; General Fund Cash Flow (Part II; Pages 45-57). The following tables provide updates and additions to various tables containing General Fund information for the 2023-24 fiscal year. Actual General Fund information for the 2023-24 fiscal year through January 31, 2024, and projections for the remainder of the 2023-24 fiscal year, are presented primarily on a cash basis.

The projections and estimates for the 2023-24 fiscal year reflect 2023 Wisconsin Act 19 and the May 2023 LFB Report, but do not reflect the January 2024 LFB Report. The comparison of monthly General Fund information that is presented on a cash basis has many inherent problems. Unforeseen events or variations from underlying assumptions may cause a decrease or increase in receipts and disbursements from those projected for any specific month. The following tables may show negative balances on a cash basis. The State can have a negative cash balance at the end of a fiscal year.

The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect.

If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.

Table II-11; General Fund Cash Flow (Part II; Page 48). Replace with the following updated and revised table, some of the data in which became available after the date of the Preliminary Official Statement (February 8, 2024).

TOTAL DISBURSEMENTS	\$3,714,843	\$2,996,522	\$4,129,665	\$3,479,214	\$3,957,580	\$4,650,447	\$3,508,064	\$4,355,368	\$5,772,694	\$4,377,312	\$3,782,675	\$6,155,924

- (a) The projections and estimates in this table reflect 2023 Wisconsin Act 19 and the May 2023 LFB Report. Projections and estimates do not reflect any specific disbursement, but rather generalized assumptions for disbursement, of remaining ARPA federal funds. Projections and estimates also do not reflect the January 2024 LFB Report. Temporary reallocations of cash are not included.
- (b) The General Fund cash balances presented in this schedule are not based on GAAP. The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds are anticipated to range from \$895 million to \$1.6 billion for the 2023-24 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These deposits have averaged and are expected to continue to average approximately \$25 million during each fiscal year.
- (c) The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund may be in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect, with an additional amount up to 3% for a period of up to 30 days. The resulting amounts available for temporary reallocation for the 2023-24 fiscal year (based on 2023 Wisconsin Act 19), are approximately \$2.039 billion and \$680 million, respectively. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

2023-24 FISCAL YEAR VARIANCE YEAR-TO-DATE				\$1,605,032	\$1,605,032	

(a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.

(b) The projections and estimates for the 2023-24 fiscal year reflect 2023 Wisconsin Act 19 and the May 2023 LFB Report. The projections and estimates do not reflect any specific disbursement of remaining ARPA federal funds. The projections and estimates also do not reflect the January 2024 LFB Report.

(c) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed which may result in large variances. This column includes adjustments to the variances, if any, to more accurately reflect the variance between the estimated and actual amounts.

Table II-15; Cash Balances in Funds Available for Temporary Reallocation (Part II; Page 53). Replace with the following updated and revised table, some of the data in which became available after the date of the Preliminary Official Statement (February 8, 2024).

**CASH BALANCES IN FUNDS AVAILABLE FOR
TEMPORARY REALLOCATION^{(a)(b)}
July 31, 2021 to January 31, 2024 — Actual
February 29, 2024 to June 30, 2024 — Projected^(c)
(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$3.412 billion during November 2019 to a high of \$7.108 billion during January 2024. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

<u>Available Balances; Does Not Include Balances in the LGIP</u>				
<u>Month (Last Day)</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>2024</u>
January		\$2,273	\$2,958	\$1,685

March		2,282	3,124	1,815
April		2,211	3,159	1,716
May		2,285	3,225	1,670
June		2,812	3,420	1,806
July	\$2,243	2,711	2,534	
August	2,067	2,443	2,732	
September	2,148	2,671	2,889	
October	2,011	2,408	2,908	
November	2,085	2,678	3,134	
December	2,209	3,008	3,352	

<u>Available Balances; Includes Balances in the LGIP</u>				
<u>Month (Last Day)</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>2024</u>
January		\$7,971	\$2,958	\$1,685
February		8,200	3,024	3,024
March		8,664	3,124	1,815
April		8,085	3,159	1,716
May		7,783	3,225	1,670
June		8,845	3,420	1,806
July	\$8,383	9,343	2,534	
August	7,160	7,786	2,732	
September	6,915	7,507	2,889	
October	6,410	6,986	2,908	
November	6,342	7,121	3,134	
December	7,238	7,846	3,352	

- (a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocations were made from such fund.
- (c) The projections and estimates for 2023-24 fiscal year (cash basis) reflect 2023 Wisconsin Act 19, the May 2023 LFB Report, and generalized assumptions for disbursement of remaining ARPA federal funds. The projections and estimates do not reflect the January 2024 LFB Report.

Table II-16; General Fund Recorded Revenues (Part II; Page 55). Replace with the following updated and revised table, some of the data in which became available after the date of the Preliminary Official Statement (February 8, 2024).

GENERAL FUND RECORDED REVENUES^(a)
(Agency-Recorded Basis)

July 1, 2023 to January 31, 2024 compared with previous year

	Annual Fiscal Report Revenues 2022-23 Fiscal Year^(b)	Projected Revenues 2023-24 Fiscal Year^(c)	Recorded Revenues July 1, 2022 to January 31, 2023^(d)	Recorded Revenues July 1, 2023 to January 31, 2024^(e)
Individual Income Tax	\$9,414,700,000	\$9,623,200,000	\$5,499,955,493	\$5,531,681,872
General Sales and Use Tax	7,456,100,000	7,639,500,000	3,844,762,886	3,911,792,790
Corporate Franchise and Income Tax	2,748,500,000	2,680,600,000	1,263,321,209	1,209,482,535
Public Utility Taxes	401,200,000	374,000,000	189,122,236	208,416,675
Excise Taxes	617,800,000	594,400,000	323,963,012	304,446,509
Inheritance Taxes	-0-	-0-	-0-	-0-
Insurance Company Taxes	223,100,000	236,000,000	102,450,924	101,327,043
Miscellaneous Taxes	112,600,000	103,000,000	149,917,644	145,280,679
SUBTOTAL	\$20,974,000,000	\$21,250,700,000	\$11,373,493,404	\$11,412,428,103
Federal and Other Inter-Governmental Revenues ^(f)	17,216,415,000	12,833,045,700	9,608,488,776	9,123,758,610
Dedicated and Other Revenues ^(g)	9,003,260,000	10,016,718,100	5,363,755,138	5,361,817,787
TOTAL	\$47,193,675,000	\$44,100,463,800	\$26,345,737,318	\$25,898,004,500

- (a) The revenues in this table are presented on an agency-recorded basis and not a budgetary basis. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- (b) The amounts are from the Annual Fiscal Report (budgetary basis) for the 2022-23 fiscal year dated October 16, 2023.
- (c) The estimates in this table for the 2023-24 fiscal year (cash basis) reflect 2023 Wisconsin Act 19, but do not reflect the January 2024 LFB Report.
- (d) The amounts shown are the 2022-23 fiscal year general purpose revenues and program revenue taxes as recorded by State agencies. There may be differences between the tax revenues shown in this table and those that may be reported by the State of Wisconsin Department of Revenue (**DOR**) from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (e) The amounts shown are the 2023-24 fiscal year general purpose revenues and program revenue taxes as recorded by State agencies. There may be differences between the tax revenues shown in this table and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (f) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (g) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.

Representative Mark Born, Assembly Chair
Senator Howard Marklein, Senate Chair
Joint Committee on Finance
State Capital
Madison, WI 53702

Dear Representative Born and Senator Marklein:

In January of each year, this office conducts a review of the status of the state's general fund and presents its findings to the Legislature. In the even-numbered years, this analysis includes an examination of economic forecasts and tax collection and expenditure data of the current fiscal year, and projections for each year of the current biennium. We have now completed that review.

Based upon our analysis, we project the closing, net general fund balance at the end of this biennium (June 30, 2025) to be \$3,152.0 million. This is \$439.1 million below the net balance that was projected at the time of enactment of the 2023-25 biennial budget, as modified to: (1) incorporate the 2022-23 ending balance (2023-24 opening balance) as shown in the Annual Fiscal Report; (2) include the fiscal effect of all legislation enacted to date in the current legislative session (2023 Acts 1 to 86); and (3) incorporate the effect of the negotiated agreement between the leadership of the majority party of the Legislature and the UW System, as approved by the UW Board of Regents.

The \$439.1 million is the net result of: (1) a decrease of \$422.3 million in estimated tax collections; (2) a decrease of \$53.2 million in departmental revenues (non-tax receipts deposited into the general fund); (3) a \$52.1 million increase in sum sufficient appropriations; and (4) an increase of \$88.5 million in the amounts that are estimated to lapse (revert) to the general fund.

The biennial GPR appropriation for the Medical Assistance program is currently projected to end the biennium with a surplus of \$56.5 million, according to the most recent quarterly report on the status of the program's budget prepared by the Department of Health Services. Some utilization and enrollment factors are both slightly below budget estimates, and some are slightly above, but on balance the Department anticipates a surplus. This amount is relatively small in

relation to the total GPR budget for the program (less than 0.7%), and could change as actual enrollment and program costs vary from current estimates. Nevertheless the general fund condition estimate presented in this memorandum includes the Department's surplus estimate in the total of projected appropriation lapses.

The following table reflects the 2023-25 general fund condition statement, which incorporates our revenue and expenditure projections.

TABLE 1

2023-25 General Fund Condition Statement

	<u>2023-24</u>	<u>2024-25</u>
Revenues		
Opening Balance, July 1	\$7,073,240,000	\$3,808,230,500
Taxes	21,055,500,000	21,772,200,000
Departmental Revenues		
Tribal Gaming Revenues	0	0
Other	<u>781,892,000</u>	<u>674,013,700</u>
Total Available	\$28,910,632,000	\$26,254,444,200
Appropriations, Transfers, and Reserves		
Gross Appropriations	\$22,710,632,700	\$21,052,961,400
Sum Sufficient Reestimates	10,399,300	41,663,300
Transfers to:		
Building Program	1,657,354,900	0
PFAS Trust Fund	110,000,000	0
Local Government Fund	0	1,563,380,000
Innovation Fund	0	303,000,000
Transportation Fund:		
EV Sales Tax	39,300,000	55,100,000
0.25% Transfer	48,112,000	51,700,000
Other	555,523,900	0
Compensation Reserves	311,180,900	397,930,000
Less Lapses	<u>-340,102,200</u>	<u>-468,283,100</u>
Net Appropriations	\$25,102,401,500	\$22,997,451,600
Balances		
Gross Balance	\$3,808,230,500	\$3,256,992,600
Less Required Statutory Balance	<u>-100,000,000</u>	<u>-105,000,000</u>
Net Balance, June 30	\$3,708,230,500	\$3,151,992,600

Table 1 incorporates the fiscal effects of all bills enacted to date in the current legislative session (through 2023 Act 86), and the negotiated agreement between the majority party of the Legislature and the UW System, as approved by the UW Board of Regents. The table does not include the impact of any enrolled bills or bills that are pending before the Legislature.

Review of the National Economy in 2023

This office prepared revenue estimates for the 2023-25 biennium in January, 2023, based on the January, 2023, S&P Global Market Intelligence (S&P Global) forecast for the U.S. economy. The forecast predicted that a mild recession, beginning in the first quarter of 2023, would result in a peak-to-trough decline in real gross domestic product (GDP) of 0.6%. Assuming recovery would begin in the third quarter of 2023, S&P Global projected minimal real GDP growth of 0.5% in 2023, followed by growth of 1.8% in 2024 and 2.0% in 2025. The forecast anticipated that the Federal Reserve's tightening of financial conditions would ease both the tight labor market and high inflation.

The January, 2023, S&P Global forecast was based on the following assumptions. First, the forecast assumed the Public Health Emergency (PHE) would be extended through mid-June, 2023, and anticipated that the transition of COVID-19 from pandemic to endemic would continue. Second, the forecast incorporated all legislation enacted prior to December 29, 2022, and assumed real discretionary funding would be extended at federal fiscal year 2022 levels. That forecast did not include the economic effects of the Consolidated Appropriations Act of 2023 (CAA23). Third, strong revenues and federal financial support provided by federal pandemic relief monies and the Infrastructure Investment and Jobs Act (IIJA) would prevent state and local governments from experiencing a fiscal contraction. Fourth, the Federal Reserve was expected to raise its policy rate to a range of 4.75% to 5.00% by March, 2023, and allow its balance sheet to decline by about one-third by 2024. Fifth, the forecast assumed that the existing tariffs between the U.S. and China would remain in effect. Sixth, growth in real, trade-weighted foreign GDP was expected to slow from 3.3% in 2022 to 1.4% in 2023, and foreign measures of inflation were expected to recede from 5.9% in 2022 to 2.3% by 2025. S&P Global assumed that foreign sovereign bond yields would increase from 0.3% in 2020 to 2.7% in 2023, as central banks tightened monetary policy to combat inflation. Seventh, it was estimated that the price of Brent crude oil would ease to \$87 by 2024, down from \$101 in 2022. Finally, S&P Global assumed that farm prices, which were elevated in 2022, would ease in 2023.

S&P Global's January, 2023, forecast also included an optimistic and pessimistic scenario. The optimistic forecast scenario was that a more robust consumer and business response to the IIJA and a quicker resolution to the Russia-Ukraine conflict would result in stronger productivity and consumer spending growth, lower energy prices, and increased business fixed investment. In the optimistic scenario, real GDP growth would remain positive throughout 2023. The downside risk to the forecast was that the U.S. would experience a deeper recession in 2023 with weaker consumer spending than assumed in the baseline forecast.

In May, this office reviewed additional tax collection data and S&P Global's May economic forecast. The estimates were revised downward, primarily based on weaker than expected collections for the corporate income/franchise tax, the individual income tax, and the cigarette tax through April, 2023. The May revisions also incorporated S&P Global's May, 2023, forecast for the U.S. economy,

which generally reflected expectations of stronger economic growth in 2023, paired with slower growth in 2024 and 2025, relative to January, 2023. The forecast no longer anticipated a 2023 recession. The forecast for real GDP growth was increased accordingly, from 0.5% to 1.2% in 2023, relative to the January, 2023, estimate. However, growth expectations decreased slightly over the remainder of the forecast period, from 1.8% to 0.9% in 2024 and from 2.0% to 1.6% in 2025. Sales of new and existing homes and housing starts in 2023 were revised up significantly, from -26.5% to -15.5% and from -23.4% to -13.9%, respectively. Forecasted 2023 growth was also revised up in May to reflect changes to the following indicators: (a) consumer prices, which were up 0.3 percentage points; (b) personal income (up 1.2 percentage points); (c) nonfarm payrolls (up 1.3 percentage points); (d) economic profits (up 5.3 percentage points); and (e) nominal consumer spending (up 0.6 percentage points). In addition, the unemployment rate was adjusted down from 4.6% to 3.6% in 2023 and from 4.8% to 4.3% in 2024, and adjusted up slightly in 2025.

Several key assumptions in the May forecast differed from those of the January forecast. In May, the PHE was expected to end on May 11, one month earlier than anticipated in the January forecast. The May forecast incorporated the economic impact of the CAA23 (not included in the January forecast) and assumed student loan forbearance would expire on July 1. The new forecast expected the Federal Reserve to raise its policy rate to a range of 5.00% to 5.25% (25 basis points higher than assumed in January). The May forecast anticipated growth of real, trade-weighted foreign GDP and foreign measures of inflation to be higher than assumed in January. Finally, the price of Brent crude oil was expected to decline from \$101 per barrel in 2022 to \$84 per barrel in 2024 (slightly lower than anticipated in January).

As mentioned, the May forecast no longer anticipated a 2023 recession and assumed positive GDP growth throughout the year. S&P Global now estimates real GDP grew by 2.4% in 2023, exceeding its May expectations by 1.2 percentage points.

The Federal Reserve remained dedicated to returning the inflation rate to 2.0%. In pursuit of this objective, it increased the federal funds rate four more times in 2023 (11 times since March, 2022), to a range of 5.25% to 5.50% by December, 2023. This range is higher than the January, 2023, forecast by 50 basis points. In total, the federal funds rate was increased by 100 basis points over the year. As predicted, the Federal Reserve maintained its plan to reduce its balance sheet by one-third through 2024, by allowing up to \$35 billion worth of agency debt and mortgage-backed securities and \$60 billion worth of Treasuries it holds to mature each month without reinvesting the proceeds back into the marketplace.

As the federal funds rate increased, the value of existing Treasuries held by banks decreased. Tightening monetary policy contributed to a brief banking crisis that began in March of 2023, when Silicon Valley Bank began selling investments, such as Treasuries, at a loss to fulfill increasing customer withdrawals of cash. This action raised concern among the bank's customers, leading to a bank run and the subsequent failure of Silicon Valley Bank. Signature Bank and First Republic Bank faced similar circumstances and both failed by the end of April. Following these failures, the Federal Reserve and the U.S. Treasury took a number of actions to restore confidence in the banking system, including: (a) providing emergency loans to banks in distress; (b) promising all customers of the failed banks that they would receive all of their deposits back; and (c) hinting at a pause from the federal funds rate increases.

The 30-year, conventional, fixed mortgage rate continued to rise with the federal funds rate in 2023. In contrast to historically low mortgage rates in 2020 and 2021 (2.68% in December, 2020), the average monthly rate peaked at 7.62% in October, 2023, the highest rate since November, 2000, and ended the year at 6.82%. High mortgage rates and persistently high house prices, particularly for existing homes, significantly impacted demand for existing houses. Additionally, supply of existing houses was also impacted, as many owners who had previously locked in much lower interest rates on their home loans were reluctant to sell. S&P Global estimates that sales of existing houses declined 19.6% in 2023, generally consistent with the previous forecast.

In response to the tightening of monetary policy and the easing of supply chain issues, the consumer price index (CPI) declined from 5.8% growth in quarter one of 2023 to 3.2% in the fourth quarter. Over the year, the CPI averaged 4.1%, just slightly lower than predicted in May. Growth in food prices eased in 2023, but remained elevated (5.8%). Energy prices declined 4.8% in 2023, as U.S. oil production increased to a record high of 13.2 million barrels per day. Likewise, the price of Brent crude oil eased from \$101 in 2022 to \$83 in 2023, slightly lower than predicted in May. Core CPI (which excludes food and energy prices) increased 4.8% over 2023, driven (as predicted) by a 6.2% increase in prices for nonenergy services.

The U.S. and Wisconsin labor markets remained strong through 2023, although they loosened slightly as the year progressed. Wisconsin's unemployment rate fell to a record low of 2.4% in April and May of 2023, then rose to 3.3% by December. By comparison, the national unemployment rate declined to 3.4% in January and April, and ended the year at 3.7%. As predicted in May, the national unemployment rate averaged 3.6% for the year. U.S. nonfarm payrolls increased 2.3% for the year, just slightly above the May, 2023, forecast. Personal income increased 5.2%, while wage and salary disbursements increased 6.2%, both growing 0.3 percentage points slower than previously forecasted.

Nominal consumer spending growth eased as inflation began to moderate, but still increased 6.0% in 2023 (1.9 percentage points higher than CPI growth). As such, consumer spending was the primary driver of the economy, contributing 1.5 percentage points to real GDP growth. Despite strikes at General Motors, Ford, and Stellantis, as well as rising interest rates, light vehicle sales increased 12.0% in 2023, exceeding the May forecast for growth by 4.2 percentage points. This increase in light vehicle sales is attributable to improved global supply chains, compared to issues caused by the shortage of computer chips and other manufacturing disruptions seen in the preceding year.

President Biden's federal loan forgiveness plan, which would have provided student loan forgiveness of up to \$10,000 (\$20,000 for Pell Grant recipients) for qualifying individuals, faced a number of lawsuits and was halted by an injunction issued by a federal court in November, 2022. The Biden Administration requested a ruling from the U.S. Supreme Court, which resulted in the plan being struck down in June, 2023. The Court ruled that the President did not have the authority to instruct the Secretary of Education to cancel such a large amount of consumer debt without authorization from Congress. On June 7, 2023, Congress enacted a law ending and preventing further extensions of the student loan payment pause and interest deferral (which began in March, 2020). Consequently, student loan interest resumed on September 1, 2023, with the first payments coming due in October (three months later than assumed in the previous forecast).

Although it is too soon to tell whether the Federal Reserve's actions have successfully reduced inflation without causing a recession, it can be concluded that the U.S. avoided a recession in 2023. As inflation eased, consumer spending remained steady and unemployment rates remained low. The stock market recovered strongly, with the S&P 500 and Dow Jones Industrial Average increasing 24.2% and 13.7%, respectively, over the year. In contrast with declines predicted in prior forecasts, real household net worth stayed flat in 2023, up just 0.1% compared to 2022. The University of Michigan Consumer Sentiment index recovered from its record low of 50.0 in June, 2022, but remained low relative to levels seen prior to 2022. In December, 2023, the Consumer Sentiment index averaged 69.7.

The conflict between Russia and Ukraine continued in 2023, with significant casualties on both sides. According to the United States Department of State, as of December 27, 2023, the U.S. had provided approximately \$44.2 billion in military assistance to Ukraine since the full-scale invasion on February 24, 2022. In the Middle East, another conflict arose on October 7, 2023, when Hamas, an Islamist militant movement in the Palestinian territory, launched a coordinated land, sea, and air assault against Israel. Both conflicts are ongoing as of this writing.

United States lawmakers had difficulty agreeing on decisions related to debt and spending in 2023, resulting in various bills that delayed such decisions until a later date. The U.S. reached its debt ceiling of \$31.4 trillion in January, 2023, and extraordinary measures were taken to borrow funds without breaching the debt ceiling. To address this issue, the Fiscal Responsibility Act of 2023 (FRA23), enacted on June 3, 2023, suspended the debt limit through January 1, 2025. Further, to avoid a government shutdown, Congress passed a series of temporary funding bills to fund the government beginning on October 1, 2023. At present, temporary funding is provided to U.S. government agencies through March 8, 2024 (March 1 for certain agencies).

National Economic Forecast

Under the January, 2024, forecast, S&P Global predicts modest GDP growth, supported by an easing of financial conditions. Real GDP growth is forecast to slow relative to 2023, but to continue growing 1.7% in 2024 and 1.5% in 2025. S&P Global believes that a period of below-trend growth is necessary to lower inflation to 2%. While labor markets are projected to remain tight into 2024, the forecast assumes that economic conditions will achieve sustained 2% inflation by late 2025.

The 2024 forecast is based on the following key assumptions. First, the forecast assumes that the debt ceiling, which was suspended through 2024 by the FRA23, is raised before the end of 2024, and legislation is passed in time to avoid a government shutdown. FRA23 established statutory caps governing discretionary budget authority through fiscal year 2025, which are assumed to grow at the rate of inflation after 2025. Second, it assumes that state and local budgets have returned to deficit, after having been supported by stimulus relief measures in 2021 and 2022. However, unspent pandemic-era and IIJA funds are expected to mitigate pressures to reduce state and local spending. Third, S&P Global anticipates that the Federal Reserve will: (a) cut its policy rate four times in 2024, beginning in March, to a range of 4.25% to 4.50% by December of 2024, and to a range of 2.50% to 2.75% by early 2026; and (b) continue shrinking its balance sheet by about one third, from a high of \$8.97 trillion in April, 2022. Fourth, the forecast assumes that tariffs enacted by the U.S. and China since 2017 will remain in effect. Fifth, it assumes that growth in real, trade-weighted foreign GDP

will slow from 2.0% in 2023 to 1.8% in 2024, then rebound to 2.5% by 2026. Foreign CPI inflation is expected to fall to 2.4% by 2026 (from 5.9% in 2022), and foreign sovereign bond yields are expected to grow to 2.8% in 2024 as central banks around the world tighten monetary policy. Finally, it is estimated that the price of Brent crude oil will decline from \$101 per barrel in 2022 to \$76 per barrel in 2025, increase to \$87 by 2027, then rise at roughly the rate of inflation.

The forecast is summarized in Table 2, which reflects S&P Global's January, 2024, baseline outlook. Selected baseline projections are presented in more detail below, with alternative optimistic and pessimistic scenarios discussed thereafter.

TABLE 2
Summary of National Economic Indicators
S&P Global Baseline Forecast, January, 2024
(\$ in Billions)

	<u>2022</u>	<u>2023</u>	<u>2024</u>	<u>2025</u>
Nominal Gross Domestic Product	\$25,744.1	\$27,316.6	\$28,335.0	\$29,385.1

Housing Starts (Millions of Units)	1.551	1.406	1.391	1.366
Percent Change	-3.4%	-9.3%	-1.1%	-1.8%

Consumer Prices. CPI slowed to 4.1% in 2023, down from 8.0% in 2022. As predicted, core CPI, which excludes food and energy prices, exceeded overall CPI, growing 4.8% in 2023. S&P Global expects average annual CPI growth to slow to 2.7% in 2024, and return to the Federal Reserve's long-term inflation target of 2.0% by 2025. Core CPI growth is expected to ease more slowly, growing at a rate of 3.0% in 2024 and 2.4% in 2025. The forecast predicts that core CPI growth will again be driven by increases in the price of services, as prices of commodities (goods such as clothing and vehicles) are expected to decline slightly in 2024 and 2025. The average price of new vehicles peaked in 2023 at \$45,400, despite the easing of supply chain issues. S&P Global projects that the average new vehicle price will ease to \$43,300 in 2024 and \$41,100 in 2025.

Personal Consumption. Nominal PCE grew 6.0% in 2023, with growth in spending on services (7.4%) exceeding spending on goods (3.2%). Spending on services made up 66.7% of all consumer spending, still short of its pre-pandemic level (68.6% in 2019). S&P Global projects that the shift from spending on goods to spending on services will continue, with services making up 67.6% of all expenditures in 2024 and 68.3% in 2025.

S&P Global anticipates that nominal PCE growth will ease to 3.9% in 2024 and 3.2% in 2025, as inflation continues to slow. Sales of light vehicles increased 12% in 2023, and are projected to continue growing 2.5% in 2024 and 4.6% in 2025. Supported by modest growth in real disposable income, real (inflation-adjusted) PCE is projected to grow 1.8% in 2024 and 1.2% in 2025.

Employment. The national unemployment rate averaged 3.6% over 2023, consistent with the May, 2023, projections, but improved by 1.0 percentage point compared to the January, 2023, projections. S&P Global now expects the labor market to remain tight until late 2024, at which point conditions will begin to ease. The unemployment rate is projected to increase to 4.0% in 2024, 4.1% in 2025, and peak in 2027 at 4.4% (equal to S&P Global's estimate of the full-employment rate). Overall, average annual nonfarm payrolls are expected to remain relatively flat through 2025, growing just 0.8% in 2024 and 0.2% in 2025. S&P Global estimates that the U.S. labor force participation rate increased slightly to 62.6% in 2023, and will peak at 62.7% in 2024 before beginning a gradual decline through the rest of the forecast period.

Personal Income. Personal income grew 5.2% in 2023, slightly less than previously expected (5.5% in the May forecast), stemming from slower growth in wages and salary disbursements of 6.2% (compared to 6.5% forecast in May). Going forward, personal income is expected to continue growing, increasing 4.7% in 2024 and 5.0% in 2025. S&P Global projects that wage and salary disbursements will grow at a slightly slower pace of 4.5% in 2024 and 3.8% in 2025.

Real disposable income growth turned positive in 2023 (4.2%), after declining 6.0% in 2022, and is expected to continue increasing 2.7% and 2.9% in 2024 and 2025, respectively. Real household net worth remained flat (0.1%) in 2023 and is projected to grow 4.0% in 2024, supported by a 12.0% increase in household holdings of equities (such as stocks and bonds). Real net worth is projected to decline 0.3% in 2025, as inflation slightly outpaces growth in household financial assets.

Housing. Housing starts declined 9.3% in 2023, improved from the 13.9% decline estimated in May, 2023. The average price of existing homes remained flat in 2023 (higher than the previous forecast of an 8.4% decline), whereas the average price of new homes declined 4.8% (lower than the

May, 2023, estimate of -1.9%). Overall, sales of new and existing homes declined 16.9% in 2023, driven largely by the decline in existing home sales.

Going forward, S&P Global estimates a continued decline in housing starts in 2024 (-1.1%) and 2025 (-1.8%). Sales of new and existing homes are expected to remain relatively flat in 2024, increasing just 1.2%, and experience a stronger recovery of 13.0% in 2025. S&P Global anticipates that as mortgage rates decrease, the inventory of existing homes offered for sale will increase. The average price of existing homes is projected to grow 4.7% in 2024 and 7.9% in 2025.

Monetary Policy. As mentioned, the Federal Reserve increased the federal funds rate four times in 2023, with the last increase (25 basis points) occurring in July. The Federal Reserve continued to monitor the inflation rate and economic activity through the rest of the year and determined further rate increases were not necessary in 2023, remaining cognizant of lags with which monetary policy affects such indicators. In addition, the Federal Reserve reduced its balance sheet of agency debt, mortgage-backed securities, and Treasuries by \$838 billion in 2023, to approximately \$7.7 trillion.

It is anticipated that the Federal Reserve will not increase the federal funds rate in 2024. S&P Global now expects that the Federal Reserve will begin lowering the federal funds rate (by 25 basis points) in March, with three more reductions to follow in 2024. It is estimated that the rate will be lowered to a range of 4.25% to 4.50% by December, 2024.

Business Investment. S&P Global estimates that growth in nominal nonresidential fixed investment grew 8.2% in 2023, higher than the May, 2023, estimate of 6.5% growth. Growth in 2023 was led by investment in structures (19.1%), particularly in manufacturing (73.2%), followed by investment in intellectual property products (6.3%), and equipment (4.4%). The forecast anticipates that growth in nominal nonresidential fixed investment will slow to 3.2% in 2024 and 2.8% in 2025.

Inventories increased by an estimated \$37.3 billion (1.3%) in 2023 (from quarter four of 2022 to quarter four of 2023), up significantly from the \$8.2 billion decline estimated in May, 2023. Going forward, S&P Global anticipates that inventories will continue to increase another \$25.2 billion in 2024 and \$62.8 billion in 2025.

International Trade. Net exports contributed 0.51 percentage points to real GDP growth in 2023, as the slight increase in nominal exports (0.9%) and the decline in nominal imports (3.5%) improved the U.S. balance of trade. The volume of both imports and exports was lower than anticipated in the previous forecast.

S&P Global predicts that growth in imports (4.0%) will exceed growth in exports (3.8%) in 2024, resulting in a trade deficit of \$847.0 billion in 2024 (\$40.3 billion more than in 2023). This deficit is expected to lessen to \$774.3 billion in 2025, with exports increasing 6.2% compared to a 3.0% increase for imports. As such, net exports are expected to detract 0.06 percentage points from real GDP growth in 2024, before contributing 0.15 percentage points to growth in 2025.

Corporate Profits. Corporate before-tax book profits decreased by an estimated 0.2% in 2023, and are forecast to grow 3.4% in 2024 and 2.0% in 2025. Economic profits, which are adjusted for inventory valuation and capital consumption at current cost (and are not affected by federal tax laws),

were unchanged in 2023 (3.4 percentage points less than forecasted in May). S&P Global forecasts that economic profits will increase 0.8% in 2024 and 0.7% in 2025. The current forecast assumes that the effective federal corporate tax rate for all industries was 13.7% in 2023, and will decline slightly to 13.6% in 2024 and 13.4% in 2025.

Under current law, the temporary 100% bonus depreciation provision enacted by the Tax Cuts and Jobs Act of 2017 will continue to phase out, with the bonus depreciation percentage declining to 80% in 2023, 60% in 2024, 40% in 2025, 20% for 2026, and 0% for property placed in service after 2026. S&P Global predicts that this phase-out will increase the after-tax cost of capital, reducing investment spending in the coming years under the forecast. However, Congress is currently considering legislation to extend this bonus depreciation provision.

Fiscal Policy. The federal budget deficit is expected to decrease from \$423.8 billion in federal fiscal year 2023 to \$378.6 billion in 2024, then increase to \$410.1 billion in 2025. S&P Global estimates that spending by the federal government contributed 0.25 percentage points to real GDP growth in 2023, but will contribute just 0.06 and 0.03 percentage points in 2024 and 2025, respectively. State and local government spending contributed 0.41 percentage points to GDP growth in 2023, and is projected to contribute another 0.19 percentage points in 2024 and 0.02 percentage points in 2025.

Alternative Scenarios. S&P Global's January, 2024, forecast also includes an optimistic scenario and a pessimistic scenario. Under the optimistic scenario, S&P Global assigns a 15% probability that productivity and consumer spending will be stronger than assumed in the baseline. It assumes that the banking sector continues to support the economy through credit growth. An easing in the Russia-Ukraine conflict and in the conflict in the Middle East will allow for lower energy prices, with the price of Brent crude oil falling \$2 lower than the baseline in 2024. Real GDP grows 2.4% in 2024 and 2.0% in 2025, 0.7 percentage points and 0.5 percentage points above the baseline, respectively, in part due to reduced uncertainty over a government shutdown in 2024. Consumer spending increases 2.6% in 2024 and 1.8% in 2025, compared to 1.8% and 1.2%, respectively, in the baseline forecast, partly due to lower energy prices and strong credit expansion. Under the optimistic scenario, strong demand and elevated cash flows allow business fixed investment to increase 1.9 percentage points more than the baseline in both 2024 and 2025.

Under the pessimistic scenario, to which S&P Global assigns a 30% probability, a shallow recession occurs as tightening lending standards, due to balance sheet issues in the banking sector, restrain spending and production. It assumes that higher energy prices result from a worsening in the conflicts in Ukraine and the Middle East, affecting businesses and households. Real consumer spending grows only 0.6% in 2024 (including a decline during the first half of the year) and 0.9% in 2025, compared to 1.8% and 1.2%, respectively, under the baseline. Real GDP grows 0.9 percentage points and 0.3 percentage points slower than the baseline in 2024 and 2025, respectively. Under the pessimistic scenario, business fixed investment declines each year (-0.2% in 2024 and -0.8% in 2025) compared to growth under the baseline. The unemployment rate rises to 6.2% by mid-2025, and the price of Brent crude oil averages \$103 in 2024 and \$92 in 2025, \$20 and \$16 higher than the baseline, respectively. In response, the Federal Reserve lowers the federal funds rate more quickly than in the baseline, reaching a range of 0.50% to 0.75% by mid-2026.

General Fund Taxes

Table 3 shows general fund tax revenue estimates for 2023-24 and 2024-25. The previous estimates are the general fund tax estimates included in Act 19, adjusted to reflect subsequent law changes.

TABLE 3
Projected General Fund Tax Collections
(\$ in Millions)

	2022-23 <u>Actual</u>	<u>Previous Estimates</u>		<u>Revised Estimates</u> January, 2024	
		<u>2023-24</u>	<u>2024-25</u>	<u>2023-24</u>	<u>2024-25</u>
Individual Income	\$9,414.7	\$9,613.9	\$10,073.7	\$9,540.0	\$9,910.0
General Sales and Use	7,456.1	7,639.5	7,816.9	7,605.0	7,810.0
Corporate Income/Franchise	2,748.5	2,679.4	2,807.2	2,590.0	2,715.0
Public Utility	401.2	374.0	370.0	405.0	408.0
Excise					
Cigarette	444.7	418.6	405.2	413.0	397.0
Tobacco Products	88.3	91.0	93.0	89.0	90.0
Vapor Products	7.1	7.7	8.5	8.0	8.8
Liquor and Wine	69.4	68.9	70.2	71.0	74.0
Beer	8.3	8.1	8.2	7.5	7.4
Insurance Company	223.1	236.0	246.0	224.0	232.0
Miscellaneous Taxes	<u>112.6</u>	<u>103.0</u>	<u>111.0</u>	<u>103.0</u>	<u>120.0</u>
Total	\$20,974.0	\$21,240.1	\$22,009.9	\$21,055.5	\$21,772.2
Change from Prior Year		\$266.1	\$769.8	\$81.5	\$716.7
Percent Change		1.3%	3.6%	0.4%	3.4%

In total, these amounts are \$422.3 million lower than the previous estimates. The percentage difference is 1.0% lower. The majority of the reduction (99.3%) is attributed to lower projections for individual income taxes, which are \$237.6 million lower than the previous forecast, and corporate income/franchise taxes, which are \$181.6 million lower. The remaining \$3.1 million reduction is comprised of reduced estimates for sales and use taxes, insurance premiums taxes, and excise taxes on cigarettes, tobacco products, and beer, offset by increased estimates for utility taxes, miscellaneous taxes, and excise taxes on vapor products and liquor.

Individual Income Tax. Total individual income tax collections were \$9,414.7 million in 2022-23, an increase of 2.2% over the prior year. Actual revenues in 2022-23 were 0.4% (\$35.3 million) lower than this office's previous estimates. Based on preliminary collections information through December, 2023, total year-to-date income tax collections are higher by 2.3% (\$99.0 million) than such receipts during the same time period one year ago.

Over the remainder of 2023-24, individual income tax revenues are projected to increase by 0.6% relative to the same time period in the prior year. A significant factor impacting this

deceleration is the income tax rate reductions enacted under 2023 Act 19, the 2023-25 biennial budget act, which lowered the marginal rates for the two bottom brackets from 3.54% and 4.65% to 3.50% and 4.40%, respectively, beginning in tax year 2023. In addition, the individual income tax withholding tables were last updated on January 1, 2022, since which time significant inflation has occurred. While the taxable income amounts applicable to each bracket are adjusted each year for inflation (8.3% adjustment for tax year 2023), no such indexing has occurred in the withholding tables since 2022. As a result, wages that have merely grown with inflation in the interim would inaccurately suggest, for withholding purposes, that a comparatively greater amount of tax is owed. All else equal, these two factors are expected to create higher refunds when taxpayers file their tax year 2023 individual income tax returns in 2023-24.

An additional factor projected to increase 2023-24 refunds is the resumption of student loan payments (first due in October, 2023). Under federal and state law, student loan interest is deductible from gross income. Student loan repayments, and the accrual of interest on those loans, had been paused for eligible loans since March, 2020. The resumption of student loan payments in October of 2023 is expected to increase deductions taken for the interest on those loans when affected borrowers file their state income tax returns in 2023-24 and 2024-25.

Preliminary data on estimated payments made in January, 2024, suggest that such collections will be lower than those in January, 2023. Historically, January is a significant month for estimated payments, so these lower preliminary collections to date reduce the overall individual income tax estimate in 2023-24. On an annual basis, individual income tax revenues are projected to increase by 1.3% to \$9,540.0 million in 2023-24, which represents a decline of 0.8% relative to the prior estimate.

In 2024-25, total income tax collections are estimated to increase by 3.9% to \$9,910.0 million, which is 1.6% lower than the previous estimate. This decline relative to the prior estimate is primarily attributable to altered assumptions for capital gains realizations throughout 2024, which are now expected to be weaker than previously forecast.

General Sales and Use Tax. State sales and use tax revenues totaled \$7,456.1 million in 2022-23, which was an increase of 6.8% over the prior year. Sales tax revenues are estimated at \$7,605.0 million in 2023-24 and \$7,810.0 in 2024-25, constituting annual growth of 2.0% in 2023-24 and 2.7% in 2024-25. These estimates represent revenue decreases of \$34.5 million in 2023-24 and \$6.9 million in 2024-25, relative to the prior estimates. The decreased estimates are based on lower than previously anticipated 2022-23 collections (\$23.9 million less than the previous forecast) and lower sales tax collections year-to-date. Sales tax collections through December, 2023, are just 1.7% higher than the same period in the prior year, below the 2.5% growth for 2023-24 previously estimated and lagging behind S&P Global's estimates of taxable consumer spending. As such, the revised estimates have been lowered in each year.

Corporate Income/Franchise Tax. Corporate income/franchise taxes were \$2,748.5 million in 2022-23, which was 7.1% less than collections in the previous year. Corporate tax revenues are projected to continue to decline to \$2,590.0 million in 2023-24 (a decrease of 5.8%), and then increase to \$2,715.0 million in 2024-25 (an increase of 4.8%). Compared to previous estimates, this is a downward revision of \$89.4 million and \$92.2 million in 2023-24 and 2024-25, respectively.

The estimate for 2023-24 primarily reflects year-to-date corporate estimated payments, which declined notably (5.8%) compared to the same period through December of last year, as well as a sharp decline in year-to-date pass-through entity tax payments made by partnerships (down 39%). Overall, corporate tax collections are 8.3% lower through December, 2023, relative to the previous year. The estimate also reflects the fiscal effects of law changes enacted to date (including provisions of federal tax law), such as changes made to state and federal law impacting awards for the state supplement to the federal historic rehabilitation credit. Based on anticipated growth in before-tax book profits, and adjusting for law changes, collections are forecast to increase by 4.8% in 2024-25.

Public Utility Taxes. Revenues from public utility taxes totaled \$401.2 million in 2022-23, \$10.2 million higher than previously estimated, and are estimated at \$405.0 million in 2023-24 and \$408.0 million in 2024-25. Year-over-year, these amounts represent an increase of 0.9% in 2023-24 and 0.7% in 2024-25. Relative to the previous estimates, these estimates reflect an increase of \$31.0 million in 2023-24 and \$38.0 million in 2024-25.

The higher overall utility tax estimates are primarily attributable to increased estimates for taxes on private light, heat, and power (PLHP) companies and telecommunications companies. PLHP company tax collections in 2022-23 exceeded the prior estimate by \$11.1 million, partly resulting from the actual 2023 tax assessment exceeding estimates by \$18.7 million. A higher 2023 tax assessment impacts collections for both 2022-23 and 2023-24. In addition, estimates of growth in sales of electricity and natural gas by Wisconsin PLHP companies in 2023 have improved since the previous forecast, further increasing estimates for both 2023-24 and 2024-25.

Since enactment of 2019 Act 128, which provided an exemption from the telecommunications utility tax for certain property providing broadband internet service in rural areas beginning with property installed in 2020, the value of remaining taxable personal property has declined each year. However, the 2023 tax assessment for telecommunications companies exceeded previous estimates by \$11.8 million, driven by an unexpected increase in the value of taxable personal property. This information has led us to revise up our estimates of the future value of taxable personal property held by telecommunications companies, therefore increasing tax estimates over the biennium.

Finally, the Department of Revenue (DOR) has recently determined that, as a result of the personal property tax repeal under 2023 Act 12, the gross revenues utility tax collected from car line companies would be considered federally prohibited. In response, DOR plans to refund \$0.4 million of 2023 payments to all taxpayers in 2023-24 and no longer collect the car line company utility tax in 2024-25. This determination was not considered during deliberations of Act 12.

Excise Taxes. General fund excise taxes are imposed on cigarettes, liquor (including wine and hard cider), other tobacco products, vapor products, and beer. Total excise tax revenues in 2022-23 were \$617.8 million, of which \$444.7 million (72.0%) was from the excise tax on cigarettes. Total excise taxes declined 5.6% in 2022-23, driven by declines of 7.8% and 6.5% in cigarette and tobacco products tax revenues, respectively. Total excise tax revenues are estimated to decrease by 4.7% to \$588.5 million in 2023-24 and by 1.9% to \$577.2 million in 2024-25. Compared to the previous estimates, these amounts are lower by \$5.8 million in 2023-24 and \$7.9 million in 2024-25.

Cigarette tax revenues are estimated at \$413.0 million in 2023-24 and \$397.0 million in

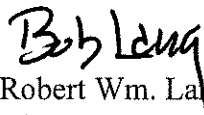

2024-25, constituting annual revenue declines of 7.1% and 3.9%, respectively. These estimates are lower than previously forecast by \$5.6 million in 2023-24 and \$8.2 million in 2024-25. These revisions are largely due to lower than anticipated year-to-date growth in sales of cigarette packs (-7.8%), and a persistent downward trend in annual revenues.

Insurance Premiums Taxes. Insurance premiums taxes were \$223.1 million in 2022-23, \$3.9 million lower than previously estimated. Revenues are projected to increase to \$224.0 million in 2023-24 and \$232.0 million in 2024-25 (growth rates of 0.4% and 3.6%, respectively). Compared to previous estimates, this revision is \$12.0 million lower in 2023-24 and \$14.0 million lower in 2024-25. The new estimates reflect: (a) that actual collections for 2022-23 were lower than had been originally forecast; (b) a decline in year-to-date collections (1.4%) compared to the previous year despite a forecasted increase in national spending on insurance premiums; and (c) trends in historic premiums tax collections.

Miscellaneous Taxes. Miscellaneous taxes include the real estate transfer fee (RETF), municipal and circuit court-related fees, and a small amount from the occupational tax on coal. Miscellaneous tax revenues were \$112.6 million in 2022-23, of which 87.8% was generated from the RETF. Total miscellaneous tax collections in 2022-23 represented a decline of 17.0% from the prior fiscal year, largely due to rising mortgage rates, which limited both supply of, and demand for, houses. Miscellaneous tax revenues are estimated at \$103.0 million in 2023-24 and \$120.0 million in 2024-25, which is higher than the previous estimate by \$9.0 million in 2024-25. The revised estimate in 2024-25 reflects improved housing market indicators, as compared to the May, 2023, forecast. A combination of a larger volume of existing homes offered for sale and higher existing home prices than previously projected is expected to increase the total RETF collected in 2024-25.

This office will continue to monitor state revenues and expenditures and new economic forecasts, and notify you and your colleagues of any further adjustments that may be necessary.

Sincerely,

Robert Wm. Laug
Director

RWL/lb

APPENDIX C

EXPECTED FORMS OF BOND COUNSEL OPINIONS

On the respective delivery dates for each series of the Bonds, it is expected that Foley & Lardner LLP will deliver legal opinions in substantially the following forms:

(Letterhead of Foley & Lardner LLP)

State of Wisconsin Building Commission
101 East Wilson Street, 7th Floor
Madison, Wisconsin 53703

\$400,775,000

STATE OF WISCONSIN

GENERAL OBLIGATION REFUNDING BONDS OF 2024, SERIES 1

We have acted as bond counsel in connection with the issuance by the State of Wisconsin (**State**) of its \$400,775,000 General Obligation Refunding Bonds of 2024, Series 1, dated the date hereof (**2024 Series 1 Bonds**). The 2024 Series 1 Bonds are authorized by Article VIII of the Wisconsin Constitution and Chapters 18 and 20 of the Wisconsin Statutes, and are being issued pursuant to a resolution adopted by the State of Wisconsin Building Commission (**Commission**) on May 3, 2023 (**Resolution**).

We examined the law, a certified copy of the proceedings relating to the issuance of the 2024 Series 1 Bonds, and certifications of public officials and others. As to questions of fact material to our opinion, we relied upon those certified proceedings and certifications without independently undertaking to verify them.

Based upon this examination, it is our opinion that, under existing law:

1. The 2024 Series 1 Bonds are valid and binding general obligations of the State.
2. The Resolution has been duly adopted by the Commission and is a valid and binding obligation of the State, enforceable upon the State as provided in the Resolution.
3. The full faith, credit, and taxing power of the State are irrevocably pledged to the payment of the principal of, and premium, if any, and interest on, the 2024 Series 1 Bonds as the 2024 Series 1 Bonds mature and become due. There has been irrevocably appropriated, as a first charge upon all revenues of the State, a sum sufficient for such purpose.
4. Interest on the 2024 Series 1 Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, interest on the 2024 Series 1 Bonds is taken into account in determining “adjusted financial statement income” for purposes of computing the federal alternative minimum tax imposed on certain corporations. The State must comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied after the 2024 Series 1 Bonds are issued for interest on the 2024 Series 1 Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to do so. A failure to comply may cause interest on the 2024 Series 1 Bonds to be included in gross income for federal income tax purposes, in some cases retroactively to the date the 2024 Series 1 Bonds were issued. We express no opinion about other federal tax law consequences regarding the 2024 Series 1 Bonds.

The rights of the owners of the 2024 Series 1 Bonds and the enforceability of the 2024 Series 1 Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights and by equitable principles (which may be applied in either a legal or an equitable proceeding). This letter expresses no opinion as to the availability of any particular form of judicial relief.

We have not been engaged or undertaken to review the accuracy, completeness, or sufficiency of the Official Statement dated February 27, 2024 or other offering material relating to the 2024 Series 1 Bonds (except to the extent, if any, stated in the Official Statement), and we express no opinion as to those matters (except only the matters set forth as our opinion in the Official Statement).

This letter speaks as of its date. We assume no duty to change this letter to reflect any facts or circumstances that later come to our attention or any changes in law. In acting as bond counsel, we have established an attorney-client relationship solely with the State.

Very truly yours,

Foley & Lardner LLP

\$89,020,000
STATE OF WISCONSIN
GENERAL OBLIGATION REFUNDING BONDS OF 2025, SERIES 1 (FORWARD DELIVERY)

We have acted as bond counsel in connection with the issuance by the State of Wisconsin (**State**) of its \$89,020,000 General Obligation Refunding Bonds of 2025, Series 1 (Forward Delivery), dated the date hereof (**2025 Series 1 Bonds**). The 2025 Series 1 Bonds are authorized by Article VIII of the Wisconsin Constitution and Chapters 18 and 20 of the Wisconsin Statutes, and are being issued pursuant to a resolution adopted by the State of Wisconsin Building Commission (**Commission**) on May 3, 2023 (**Resolution**).

We examined the law, a certified copy of the proceedings relating to the issuance of the 2025 Series 1 Bonds, and certifications of public officials and others. As to questions of fact material to our opinion, we relied upon those certified proceedings and certifications without independently undertaking to verify them.

Based upon this examination, it is our opinion that, under existing law:

1. The 2025 Series 1 Bonds are valid and binding general obligations of the State.
2. The Resolution has been duly adopted by the Commission and is a valid and binding obligation of the State, enforceable upon the State as provided in the Resolution.
3. The full faith, credit, and taxing power of the State are irrevocably pledged to the payment of the principal of, and premium, if any, and interest on, the 2025 Series 1 Bonds as the 2025 Series 1 Bonds mature and become due. There has been irrevocably appropriated, as a first charge upon all revenues of the State, a sum sufficient for such purpose.
4. Interest on the 2025 Series 1 Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, interest on the 2025 Series 1 Bonds is taken into account in determining “adjusted financial statement income” for purposes of computing the federal alternative minimum tax imposed on certain corporations. The State must comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied after the 2025 Series 1 Bonds are issued for interest on the 2025 Series 1 Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to do so. A failure to comply may cause interest on the 2025 Series 1 Bonds to be included in gross income for federal income tax purposes, in some cases retroactively to the date the 2025 Series 1 Bonds were issued. We express no opinion about other federal tax law consequences regarding the 2025 Series 1 Bonds.

The rights of the owners of the 2025 Series 1 Bonds and the enforceability of the 2025 Series 1 Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors’ rights and by equitable principles (which may be applied in either a legal or an equitable proceeding). This letter expresses no opinion as to the availability of any particular form of judicial relief.

We have not been engaged or undertaken to review the accuracy, completeness, or sufficiency of the Official Statement dated February 27, 2024, the Updated Official Statement dated _____, 2025, or other offering material relating to the 2025 Series 1 Bonds (except to the extent, if any, stated in such Official Statement or Updated Official Statement), and we express no opinion as to those matters (except only the matters set forth as our opinion in such Official Statement or Updated Official Statement).

This letter speaks as of its date. We assume no duty to change this letter to reflect any facts or circumstances that later come to our attention or any changes in law. In acting as bond counsel, we have established an attorney-client relationship solely with the State.

Very truly yours,

Foley & Lardner LLP
