ADMINISTRATION**

SCOTT McCALLUM
GOVERNOR

GEORGE LIGHTBOURN
SECRETARY

Office of the Secretary
Post Office Box 7864
Madison, WI 53707-7864
Voice (608) 266-1741
Fax (608) 267-3842
TTY (608) 267-9629

October 15, 2001

The Honorable Scott McCallum
The Honorable Members of the Legislature

This report presents statements of fund condition and operations (budgetary basis) of the State of Wisconsin for the fiscal year ended June 30, 2001. This satisfies the requirements of sec. 16.40(3), Wisconsin Statutes. Displayed are major sources of revenues and major categories of expenditures for the General Fund and other funds compared to the prior year.

The General Fund has an undesignated balance of \$207.5 million as of the end of the fiscal year. This is \$58.4 million higher than the \$149.1 million estimate that was projected in the final Chapter 20 fund condition statement. In addition, this reflects only minor variations from the gross ending balance of \$197.8 million estimated for fiscal year 2001 by the Legislative Fiscal Bureau in its summary of 2001 Act 16.

General-purpose revenue taxes were \$10.063 billion compared to \$10.946 billion in the prior year, a decrease of \$883 million or 8.1 percent. This decrease is the result of reductions in income tax rates and other changes to state tax laws made in 1999 Wisconsin Act 9. General-purpose revenue expenditures, excluding fund transfers, were \$11.078 billion compared to \$11.270 billion in the prior year, a decrease of \$192 million or 1.7 percent. This reduction reflects the one-time sales tax rebate distributed in fiscal year 2000. If the rebate is excluded, fiscal year 2001 spending increased by \$506.9 million or 4.8 percent.

General-purpose revenue spending increases in fiscal year 2001 were largely driven by increases in three areas: School Aids increased by \$239.9 million, Corrections increased by \$94.1 million, and UW System increased by \$93.2 million.

In fiscal year 2001, the State of Wisconsin continued to devote the major share of state tax collections to assistance to local school districts, municipalities and counties. Local assistance accounted for 60.3 percent of total general purpose revenue spending. Aid payments to individuals and organizations represented 16.1 percent of total general purpose revenue expenditures. The University of Wisconsin accounted for 9.4 percent of total general purpose revenue spending and state operations spending for all other state agencies accounted for 14.2 percent of the total.

The State of Wisconsin expects to publish its comprehensive annual financial report in December of 2001. The report will be prepared under generally accepted accounting principles.

Respectfully submitted,

George Lightbourn
Secretary

William J. Raftery, CPA
State Controller

The Year In Summary

Revenue Highlights

General purpose revenue (GPR) taxes for the fiscal year (FY) ending June 30, 2001 totaled \$10,063.4 million, a decrease of 8.1 percent from FY 2000 collections of \$10,945.9 million.

Total tax collections for FY 2001 were \$6.9 million or 0.1 percent above the Chapter 20 estimate (of 2000-01 statutes) of \$10,056.5 million.

Individual income taxes exceeded the estimate by \$46.6 million, public utility taxes by 3.2 million, and insurance company taxes by 2.0 million. The following were below the estimates: sales taxes by 10.1 million, corporate/franchise/income tax collection by 26.8 million, and estate taxes by 7.9 million.

Table 1

General Purpose Revenue (GPR) Taxes By Source GPR Tax Collections (\$ Millions)

Tax Source	FY 01	% of Total	FY 00	% of Total	Change FY00- FY01	% Change
Individual Income	\$5,156.5	51.24%	\$5,962.0	54.47%	\$ -805.5	-13.5%
General Sales & Use	3,609.9	35.87%	3,501.7	31.99%	108.2	3.1%
Corporation Franchise & Income	537.2	5.34%	644.6	5.89%	-107.4	-16.7%
Excise	299.8	2.98%	301.8	2.76%	-2.0	-0.7%
Inheritance, Estate & Gift	77.1	0.77%	133.3	1.22%	-56.2	-42.2%
Public Utility	239.2	2.38%	260.0	2.38%	-20.8	-8.0%
Insurance Companies	89.0	0.88%	86.9	0.78%	2.1	2.4%
Miscellaneous	54.7	0.54%	55.6	0.51%	-0.9	-1.6%
TOTAL GPR	\$10,063.4	100.00%	\$10,945.9	100.00%	\$ -882.5	-8.1%

Individual Income Tax

Individual income tax collections decreased by 13.5 percent from \$5,962.0 million in FY 2000 to \$5,156.5 million in FY 2001. The decline in income tax collections was attributable to income tax cuts including; an increased standard deduction, changes to rates and brackets, the restoration of the property tax/rent credit, and a cut in withholding. Collections were \$46.6 million (0.9 percent) above the estimate of \$5,110 million. The individual income tax share of total GPR taxes decreased from 54.5 percent in FY 2000 to 51.2 percent in FY 2001.

The largest component of individual income tax collections is withholding from wages and salaries,

which decreased 4.4 percent from \$5,109 million to \$4,886 million.

Estimated payments decreased 0.2 percent from \$978 million to \$976 million. Refunds increased 66.0 percent from \$775 million to \$1,286 million. The large increase in refunds was attributable to the fact that the income tax cut for tax year 2000 exceeded the withholding tax cut, which was not implemented until July 2000.

General Sales and Use Tax

Collections from the 5 percent general sales and use tax increased 3.1 percent from \$3,501.7 million to \$3,609.9 million. This was \$10.1 million (0.3

percent) below the \$3,620.0 million estimate. Sales tax collections as a percentage of total GPR taxes increased from 32.0 percent in FY 2000 to 35.9 percent in FY 2001.

Initial collections increased by 3.3% from \$3,409 million to \$3,523 million. Additional collections decreased 12.1% from \$79.9 million to \$70.2 million. Delinquent collections increased 12.1% from \$31.5 million to \$35.3 million.

Corporation Franchise and Income Tax

Corporate collections decreased 16.7 percent from \$644.6 million in FY 2000 to \$537.2 million in FY 2001. Corporate collections as a percentage of total GPR taxes decreased from 5.9 percent to 5.3 percent. Corporate collections were \$26.8 million below the estimate of \$564.0 million.

The major source of corporate collections, estimated payments, decreased from 15.2 percent from \$683 million to \$579 million. Payments with tax returns decreased 0.3% from \$37.4 million to \$37.3 million.

Excise Tax

Cigarette tax collections decreased 1.7 percent from \$247.6 million in FY 2000 to \$243.5 million in FY 2001. They were \$0.5 million (0.2 percent) below the estimate. The decrease in cigarette tax collections in FY 2001 is attributable to lower cigarette consumption, which fell by an estimated 1.6 percent.

Liquor and wine tax collections increased 2.6 percent from \$34.6 million to \$35.5 million. Collections exceeded the estimate of \$35.3 million by \$0.2 million (0.6 percent).

Beer tax collections decreased 0.3 percent to \$9.4 million. The peak year for beer tax collections was FY 1984 with \$10.3 million.

Tobacco products tax collections increased 10.7 percent from \$10.3 million to \$11.4 million.

Other Taxes

Public utility tax collections decreased \$20.8 million (8.0 percent) from \$260.0 million to \$239.2 million, exceeding estimates by \$3.2 million (1.4 percent). Telephone taxes declined \$34.3 million (29.9%) from \$114.7 million to \$80.4 million due to the conversion from gross receipts to ad valorem taxation. Public

utility taxes on other utilities increased by \$13.3 million (9.2%) from \$145.3 million to \$158.6 million.

Estate tax collections decreased 42.2 percent from \$133.3 million to \$77.1 million in FY 2001, \$7.9 million (9.3 percent) less than estimated. The decrease in estate tax collections is in part attributable to the absence of settlements of very large estates during FY 2001.

Insurance company taxes (generally based on premiums) increased 2.4 percent from \$86.9 million to \$89.0 million. This is \$2.0 million more than the \$87 million estimate.

Miscellaneous taxes decreased 1.6 percent from \$55.6 million to \$54.7 million. The major tax in this group is the real estate transfer fee, which decreased 2.4 percent from \$45.3 million to \$44.2 million.

Expenditure Highlights

Total state General Purpose Revenue (GPR) spending decreased by 1.7 percent or \$192.8 million in FY 2001, as shown in Table 2. This compares with a 14.5 percent increase in FY 2000 and reflects the drop off of the one-time sales tax rebate of \$699.7 million in the prior fiscal year. If this sales tax rebate is factored out of FY 2000 expenditures, GPR spending increased by \$506.9 million or 4.8 percent. When calculated in this fashion, the spending change compares with an FY 2000 increase over prior of 7.4 percent.

The largest portion of GPR expenditures in FY 2001 was directed to school districts and local units of government, consistent with past years. Local assistance received \$6,679.6 million or 60.3 percent of total GPR spending, compared to 56.8 percent in FY 2000. Aids to individuals received \$1,788.2 million, or 16.1 percent of total GPR spending in FY 2001 compared to 21.5 percent in FY 2000 (due to the one-time sales tax rebate). State operations accounted for 23.6 percent of total GPR spending, up from 21.7 percent in FY 2000. Local assistance payments represented the largest

share of the net increase in total GPR spending at \$274.5 million. The large decrease of \$633.9 million in aids to individuals reflected, again, the one-time sales tax rebate of \$699.7 million in FY 2000. If an adjustment is made to remove this one-time effect, aids to individuals increased \$65.8 million. State operations increased by \$166.6 million over the prior fiscal year.

By percentage change, state operations showed the largest increase in spending at 6.8 percent. The majority of this increase was for support of the University of Wisconsin System (9.8 percent) and Department of Corrections. Local assistance payments increased 4.3 percent in FY 2001 compared to a 6.4 percent increase in FY 2000.

The GPR budget is shaped by the ten largest programs, as detailed in Table 3. These programs comprise 84.6 percent of total GPR expenditures, as compared with 84.2 percent of GPR expenditures in FY 2000. Immediately following this section is a brief explanation of each program.

TOTAL GPR	\$11,077.7		\$11,294.0			

School Aids: State assistance to Wisconsin's 426 school districts increased by 5.7 percent or \$239.9 million in FY 2001. Total state aids to schools plus property tax credits enabled the state to reimburse an estimated 66.2 percent of school costs in FY 2001.

Since the 1993-94 school year, school districts have been subject to statewide revenue limits. These limits control the allowable increase in each school district's revenues by limiting the total revenue a district can collect from the combined sources of property tax levies for non debt purposes and state general aids. These controls combined with the large increase in state school aids, succeeded in reducing the statewide gross school property tax levy by 16.4 percent in FY 1997. In FY 1998 the gross levy was increased by 2.5 percent and in FY 1999 the levy increased by 5.6 percent. In FY 2000 the gross levy rose by 2.2 percent while in FY 2001 it rose 4.7 percent.

There are two major types of school aid. Approximately 89 percent of school aids are general aids, distributed by a formula designed to equalize each school district's property tax base per student, and aids to support the Milwaukee Public Schools voluntary desegregation program. The remaining 11 percent are categorical aids,

distributed based on local expenditures for specific activities or educational programs. The major categorical aid programs are programs for addressing special education needs and educational technology.

University of Wisconsin System: Total general purpose revenue expenditures for the UW System increased by \$93.2 million, or 9.8 percent in FY 2001. Tuition at UW institutions, despite annual increases, continues to be a relative bargain in higher education. Resident undergraduate tuition at Madison was \$901 below the "Big Ten" median. UW-Milwaukee was \$820 below its peer group median and all other campuses were approximately \$561 below their peer group medians in FY 2001.

Shared Revenue: State shared revenue provides unrestricted aid to municipal and county governments. In FY 2001, the shared revenue formula distributed \$930.5 million primarily through equalized aidable revenue payments and per capita payments. The Expenditure Restraint Program distributed another \$57.0 million, to municipalities with tax rates over 5 mills that restrained their spending increases. Two additional programs, Small Municipality Shared Revenue and County Mandate Relief, provided \$11.0 million to

municipalities with populations under 5,000 and \$20.8 million in per capita payments to counties, respectively. The total FY 2001 shared revenue payment was \$1,019.2 million, up by \$10.6 million from the previous fiscal year. Statewide, shared revenue payments provide municipalities with about 21.8 percent and counties with about 5.5 percent of their operating revenues.

Medical Assistance: Wisconsin's state and federally funded Medical Assistance (MA) program pays for medical services to certain categories of low income persons. Included are recipients of Supplemental Security Income; children and low-income families; and pregnant women and other low-income individuals who have high medical expenses. In FY 2001, total MA expenditures were \$2,968.5 million of which \$993.2 million were GPR and the balance was federally funded. Total MA spending in FY 2001 increased by 6.8 percent over FY 2000 expenditures compared to a 9.0 percent increase in the previous year. The state funded portion of MA increased 2.3 percent in FY 2001, compared to a 4.7 percent increase the previous year.

Correctional Services: Wisconsin's correctional population and related expenditures continued to increase in FY 2001. The population of incarcerated felons under the supervision of the state corrections program increased from an average daily population of 20,202 in FY 2000 to 20,672 in FY 2001, an increase of 2.3 percent. Total GPR expenditures for the state corrections program increased \$94.1 million or 13.3 percent over the prior year, reaching \$804.4 million in FY 2001.

State Property Tax Credits: The School Levy Tax Credit pays local governments to reduce each property owner's taxes. Funding for the credit in FY 2001 was \$469.3 million, the same amount as in the prior fiscal year. The School Levy Tax Credit in FY 2001 offset 7.1 percent of 2000 gross property tax levies for all purposes statewide.

Community Aids: Community Aids are state and federal funds distributed to counties to fund various human services programs. Total expenditures reached \$305.0 million in FY 2001, of which \$186.4 million was GPR. Total all funds expenditure levels increased by \$5.4 million or 1.8 percent from FY 2000.

Wisconsin Works: Wisconsin Works or W-2 is the state's replacement program for the Aid to Families with Dependent Children [AFDC] program. W-2 is a work-based system that provides support services, such as child care and transportation, to families in order to help them achieve self-sufficiency. On average, there were approximately 11,000 W-2 cases served over the course of FY 2001. As of June 2001, the W-2 caseload for cash assistance had fallen to just over 7,500.

In addition to W-2 cash benefits, other W-2 expenditures like work experience, job search, education and training, and administration are funded by the program. Also included are state funds for Food Stamp and Medical Assistance eligibility determination, fraud programs and several other small public assistance-type programs. In total, \$171.0 million of state GPR was spent on W-2 and other public assistance programs in FY 2001, a decrease of 9.9 percent from the previous fiscal year. This decrease is due primarily to a one time increase in FY 2000 to meet maintenance of effort.

Tax Relief to Individuals: Wisconsin paid out \$138.6 million GPR in tax relief to individuals through a variety of programs during FY 2001.

The GPR funded Homestead Credit and Farmland Preservation Credit and the Farmland Tax Relief Credit, which is funded by lottery proceeds, are "circuit-breaker" tax credits. Circuit-breakers assist households to pay property taxes in excess of their ability to pay. Claimants receive a credit against their state income tax liability or a refund check.

Wisconsin's Homestead Credit pioneered property tax relief through circuit-breakers. The program remains one of the nation's leaders in providing circuit-breaker relief, ranking third among the states in comprehensiveness and per capita expenditures for residential property tax relief. The Homestead Credit provided \$99.6 million of tax relief in FY 2001, compared with \$80 million in FY2000. Approximately 203,600 low-income homeowners and renters--about half of them age 60 and older--benefit from the program each year.

The Farmland Preservation Credit provides a refundable credit to farmers who qualify through exclusive agricultural zoning or individual farmland preservation agreements. Wisconsin's Farmland Preservation Credit is one of only two similar state

programs in the country. Farmland Preservation Credit expenditures totaled \$17.4 million in FY 2001, a decrease of 6.2 percent from the prior year

The Earned Income Credit program reduces income taxes for low income working families with children. In FY 2001, the Earned Income Credit paid a total of \$61.8 million to these households. Of this amount, federal TANF funding provided \$49.9 million and GPR provided \$ \$11.9 million.

SSI. Wisconsin provides a supplement to the federal supplemental security income (SSI) program which provides cash assistance to low income aged, blind and disabled workers and to disabled parents as support for their children. In FY 2001 a total of \$148.7 million was expended in SSI payments. This included \$128.3 million in state funding and \$20.4 million in federal funds.

Net	<u>\$ 207,508</u>	<u>\$ 149,065</u>	<u>\$ 58,443</u>	

Notes:

- 1 The Chapter 20 revenue numbers were taken from the Department of Revenue's Revenue Collection Report dated September 6, 2001 and updated for public utility interest. The appropriation numbers were taken from the January 25, 2001 General Fund Condition Statement, prepared by the Legislative Fiscal Bureau.
- 2 The prior year designation for continuing balances is added to the unreserved, undesignated opening balance to arrive at the unreserved opening fund balance.
- 3 Actual tax collections were more than the estimated tax collections included in the Revenue Collection Report.
- 4 Actual departmental revenues were more than anticipated revenues included in the General Fund Condition Statement. Certain budgetary lapses or residual equity transfers may have been counted as revenues in the General Fund Condition Statement. See note 12.
- 5 Joint Committee on Finance actions and new legislation passed after the published budget.
- 6 Sum sufficient appropriations are appropriations that have authority to expend amounts necessary to accomplish the purpose specified by the legislation. Appropriations are increased by expenditures that exceed the estimate. The amounts do not include compensation reserve adjustments.
- 7 As in Note 2, gross appropriations are increased for the amount of continuing balances from the preceding year.

8 Any unspent budget authority in a continuing appropriation is carried forward to the succeeding year. For purposes of this table, the unspent budget authority is a reduction to the current budget and an increase to the succeeding budget.

9 Biennial appropriations are not restricted to the annual amounts recorded in the Chapter 20 schedule. The controlling limit is the sum of the annual amounts. Therefore, any budget remaining from the first year of the biennium is carried forward to the second year of the biennium. Similarly, if the first year's budget authority is exceeded in the first year of the biennium, the agency can begin spending against the second year's budget. In FY00, the first year of the biennium, some agencies began spending against the second year's budget. Therefore in FY01, spending authority was reduced.

10 Sum sufficient increases to compensation reserve appropriations. Actual expenditures applied against the Chapter 20 compensation reserves amounted to \$111,903,546. This total was \$5,846,454 less than the Chapter 20 reserve.

11 The amount shown is for lapses of annual, biennial or sum sufficient appropriations with expenditures less than the Chapter 20 estimate.

12 Equity Transfers are nonrecurring, nonroutine transfers of equity between funds. For budgetary purposes, transfers from other funds are treated as departmental revenue. In FY01, the following transfers were made to or from (amounts in parentheses) the general fund:

Transfer from the Agricultural Chemical Cleanup Fund	\$	500,000
Transfer from the Conservation Fund		500,000
Transfer from the Recycling Fund		7,000,000
	\$	<u>8,000,000</u>

13 See also Note 8. The amount designated represents the amount of budget authority carried forward from FY01 to FY02.

Notes To Fund Statements

Note A Statutory Basis of Accounting

The State of Wisconsin Annual Fiscal Report is a report of actual financial results for the fiscal year against the state's budget as reflected in Chapter 20 of the Wisconsin Statutes. The report is not intended to display accounting information in accordance with Generally Accepted Accounting Principles (GAAP). The State's Comprehensive Annual Financial Report, which is prepared in accordance with GAAP is issued under a separate cover at the end of the calendar year. Statutes require that revenues and expenditures be recognized in the fiscal year in which they are received or paid. Exceptions are health and life insurance premiums which are paid two months in advance of the actual coverage months. The health and life insurance costs for the last two months of the fiscal year are recorded as expenditures in the following fiscal year. All investments owned by the state retirement funds are an exception to the requirement to recognize revenues and expenditures since investments are adjusted to market and the resultant unrealized gains or losses are reflected in the accounts of those funds. State statutes also provide that contributions to the state retirement funds received after August 1, which relate to earnings paid for services rendered in the previous fiscal year, may be recorded as revenues of the previous fiscal year. In addition, the state's centralized accounting records remain open until July 31 (August 15 for income, sales and use tax receipts) to permit the state departments to record revenues and expenditures applicable to the fiscal year ended June 30. Exceptions are the Building Trust Fund, the Capital Improvement Fund, and the Bond Security and Redemption Fund, which are closed as of June 30. However, the recording of charges and encumbrances applicable to the prior year is limited by the available appropriation balances of that year. In addition, state administrative policies require that revenues and expenditures be reported on a net basis; i.e., overcollections refunded are deducted from revenues, and overpayments collected are deducted from expenditures.

The July and August recording of prior fiscal years' revenues and expenditures results in accrued revenues and accounts payable in the statement of assets, liabilities and fund balances. Included in these amounts are receivables and payables between funds which are not eliminated for presentation as "due to" or "due from" other funds. Fixed assets as well as

inventories purchased and certain loans disbursed are recorded as expenditures in the period in which they are paid. Collections on loans are recorded as receipts. Equity transfers are recorded as receipts or expenditures from/to the receiving or paying funds, respectively. Encumbrances are treated as expenditures in the initial year. Unused appropriation balances may be allowed to continue for use in future years, rather than lapse to the General Fund. In these cases the continuing balances are treated as reserves for Program Revenue (PR) or General Purpose Revenue (GPR) balances. GPR consists of general taxes and miscellaneous revenues which are paid into the general fund and are then available for appropriation by the legislature. PR consists of funds also paid into the General Fund which are dedicated for specific purposes and are appropriated by the legislature as estimates through the use of revolving accounts.

Note B Fiscal Controls

The State Constitution provides that no money shall be paid out of the Treasury except as appropriated by law. The statutes require that the Secretary of Administration and the State Treasurer sign all checks. The Secretary of Administration exercises detail allotment control over all agency appropriations and approval authority over all encumbrances. The Secretary of Administration is also responsible for the audit of expenditures.

The Department of Administration maintains separate accounts for all appropriations showing the amounts appropriated, the amounts allotted, the amounts encumbered, the amounts disbursed and certain other data necessary to the financial management and control of all state accounts. The department also maintains the general ledgers of the funds of the state including the General Fund.

Note C Classification of Funds

Funds are generally classified in accordance with classification criteria appropriate for governmental accounting.

However, certain activities of a proprietary and fiduciary nature are combined within the Governmental and Trust, Agency and Other Funds. In addition, the activities of the State Building Trust Fund, included within the Capital Projects

classification, consist of capital projects as well as projects for the maintenance and repair of state facilities.

Note D Extraordinary Transfers and Transactions Affecting Fund Balance

Compensation Reserve

In FY01, Chapter 20 included a compensation reserve for employe salary and fringe benefit increases. The total amount reserved (appropriated) was \$117,750,000 and the amount expended was \$111,903,546 leaving an unspent reserve of \$5,846,454.

Note E Published Budget

The published budget amounts used in Exhibit A-1 are those shown for "General Purpose Revenues" (GPR) under state statute Chapter 20, Appropriations and Budget Management, compiled July, 2001.

The adjustments column reflects statutorily required appropriation adjustments to sum-sufficient and biennial appropriations and appropriation changes enacted under the statutory authority of the Legislative Joint Finance Committee or by statutory authority under program supplements.

The State of Wisconsin utilizes a budgetary procedure within the General Fund which treats most federal grant revenues, licenses and fees and revenues for proprietary activities as dedicated for the activities to which they relate. As such, variable budgeting techniques are used and the official state budget includes them only as estimates. These accounts, referred to as Program Revenue Appropriations, are not included in Exhibit A-1. Only those appropriations made from nondedicated General Purpose Revenues are included.

Note F Projected-to-Actual General Fund Condition

The variance between the published budgeted ending balance and actual undesignated balance at the end of fiscal year 2001 is explained as follows:

	<u>(thousands)</u>
Ending fund balance (Undesignated) per chapter 20	\$ 149,065
Opening balance adjustments:	
Prior year designation for continuing balances	36,569
Total opening balance adjustments	<u>36,569</u>
REVENUE ADJUSTMENTS	
Taxes received more than estimate	6,939
Departmental revenues more than estimate	48,536
Total revenue in excess of estimate	<u>55,475</u>
APPROPRIATION ADJUSTMENTS	
New Legislation	(11,322)
Sum sufficient appropriations more than budgeted	(48,288)
Budget brought forward from previous year	(36,569)
Budget carried to next year for continuing appropriations	9,915
Biennial spend behind	6,835
Total Appropriation Adjustments	<u>(79,429)</u>
LAPSES MORE THAN BUDGETED	47,743
RESIDUAL EQUITY TRANSFERS	8,000
DESIGNATION FOR CONTINUING BALANCES	(9,915)
	\$
UNDESIGNATED FUND BALANCE	<u><u>207,508</u></u>

Note G General Fund Cash Flow

Normally the General Fund experiences a short-term cash flow problem in the first half of the year, resulting in the issuance of an operating note. However because cash balances were sufficient during FY 2001 to cover disbursements, no operating note was required.

Note H Negative Fund Balances

The negative ending fund balance in the Transportation Fund represents commitments (encumbrances) recorded as expenditures in the current year which will be funded by the Federal and/or local governments in the future.

Note I Unappropriated Activities

The Department of Commerce enters into contracts with private vendors for programs that they manage. These contracts have not been budgeted within a state appropriation and therefore, this activity is summarized here to provide full disclosure of state agency operations.

	Commerce
Revenues	\$489,007
Expenditures	\$489,007
Balance	\$0

Note J Budget Stabilization Fund

In FY01 the balance of the Budget Stabilization Fund was \$49. This money is being accounted for in the General Fund.

Note K Change in Presentation of Other Funds

For FY01 we have restated the beginning Fund Balance of Other Funds on the A-2 and A-3 schedules. The other funds have previously only shown revenues and expenditures that have been recording in the accounting ledgers. There are loan receipts and some transactions recorded directly to equity that have not been reflected in the past. The adjustment to the beginning balance and a change in presentation now takes those transactions into account.
